OWNER-BUILDER DISCLOSURES

Important! Notice to property owner:

An application for a building permit has been submitted in your name listing yourself as the builder of the property improvements specified at:

Mono County Building is providing you with an Owner-Builder Acknowledgment and Information Verification Form to make you aware of your responsibilities and possible risk you may incur by

A Building Permit shall not be issued until you have initialed your understanding of each of the 12 listed provisions, signed, and returned this form to the Mono County Building Division.

Owner's Acknowledgment and Verification of Information:

having this permit issued in your name as the Owner-Builder.

1	I understand a frequent practice of unlicensed persons is to have the property owner obtain an "Owner-Builder" building permit that erroneously implies that the property owner is providing his/her own labor and material personally. I, as an Owner-Builder, may be held liable and subject to serious financial risk for any injuries sustained by an unlicensed person and his/her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an Owner-Builder and am aware of the limits of my insurance coverage for injuries to workers on my property.
2	I understand building permits are not required to be signed by property owners unless they are <i>responsible</i> for the construction and not hiring a licensed contractor to assume this responsibility.
3	I understand as an "Owner-Builder" I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his/her name instead of my own.
4	I understand contractors are required by law to be licensed and bonded in California and to list their license numbers on permits and contracts.
5	I understand if I employ or otherwise engage any persons, other than California licensed contractors, and the total value of my construction is at least five hundred dollars (\$500), including labor and materials, I may be considered an "employer" under state and federal law.
6	I understand if I am considered an "employer" under state and federal law, I must register with the state and federal government, withhold payroll taxes, provide workers' compensation disability insurance, and contribute to unemployment compensation for each "employee." I also understand my failure to abide by these laws may subject me to serious financial risk.
7	I understand under California Contractors' State License Law, an Owner-Builder who builds single-family residential structures cannot legally build them with the intent to offer them for sale, unless all work is performed by licensed subcontractors and the number of structures does not exceed four within any calendar year, or all of the work performed under contract with a licensed general building contractor.
8	I understand as an Owner-Builder if I sell the property for which this permit is issued, I may be held liable for any financial or personal injuries sustained by any subsequent owner(s) that result from any latent construction defects in the workmanship or materials
