

# BOARD OF SUPERVISORS MEETING

APRIL 13, 2021

## Total Positive Cases for Mono County Residents (last 30 d...

**TOTAL POSITIVE CASES: 1012 (30-DAY INCREASE: 49 OR 4.4%)**

# BLUEPRINT FOR A SAFER ECONOMY

## Metrics (week ending 04/03):

- ❑ Case Rate/100,000: 4.1 (case rates trending down)
  - ❑ Testing Positivity rate: 1.4% (positivity trending down)
- As the metrics show, we have met the Testing Positivity rate (2-4.9%) but not the Case Rate of less than 5.9 cases per 100,000 for the NEW Orange Tier.
- Under the new Guidelines\*\* Mono County needs to meet BOTH metrics for 2 consecutive weeks to move to the ORANGE TIER when the new Vaccine Equity Metric goal is achieved.

SECTORS	Tier 1 Widespread (Case Rate >7 or Test Positivity >8%)	Tier 2 Substantial (Case Rate 4-7 or Test Positivity 5-8%)	Tier 3 Moderate (Case Rate 1-3.9 or Test Positivity 2-4.9%)	Tier 4 Minimal (Case Rate <1 or Test Positivity <2%)
Post 2 million administered in first Healthy Places Index quartile	CR >10	CR 4-10	CR 1-3.9	CR <1
Post 4 million administered in first Healthy Places Index quartile	CR >10	CR 6-10	CR 2-5.9	CR <2

\* Statewide / \*\* Vaccine Equity Metric goal of 4 million doses

# MONO COUNTY COVID-19 VACCINE DASHBOARD

**Vaccinate Mono**  
Together we can end the pandemic.

Mono County Public Health has received **15,824 doses** of vaccine and issued:

- 7,444 first dose
- 6,758 fully vaccinated

## STAY INFORMED: VACCINATE MONO WEBSITE

For updated Mono County COVID-19 vaccination information, community resources, a vaccine dashboard, immunization schedule, Frequently Asked Questions (FAQ), informative videos and more, please visit [coronavirus.monocounty.ca.gov/pages/vaccinations](https://coronavirus.monocounty.ca.gov/pages/vaccinations), or hold your camera to the QR code.

**MEDICAL EXPERTS ENDORSE COVID-19 VACCINES**

Your safety is a priority.

Provided at no cost.

Vaccination helps end the pandemic.

# CDC AND FDA PAUSE JOHNSON & JOHNSON VACCINE

## Joint CDC and FDA Statement on Johnson & Johnson COVID-19 Vaccine

The following statement is attributed to Dr. Anne Schuchat, Principal Deputy Director of the CDC and Dr. Peter Marks, director of the FDA's Center for Biologics Evaluation and Research

### Media Statement

For Immediate Release: Tuesday, April 13, 2021

Contact: [Media Relations](#)

(404) 639-3286

As of April 12, more than 6.8 million doses of the Johnson & Johnson (Janssen ) vaccine have been administered in the U.S. CDC and FDA are reviewing data involving six reported U.S. cases of a rare and severe type of blood clot in individuals after receiving the J&J vaccine. In these cases, a type of blood clot called cerebral venous sinus thrombosis (CVST) was seen in combination with low levels of blood platelets (thrombocytopenia). All six cases occurred among women between the ages of 18 and 48, and symptoms occurred 6 to 13 days after vaccination. Treatment of this specific type of blood clot is different from the treatment that might typically be administered. Usually, an anticoagulant drug called heparin is used to treat blood clots. In this setting, administration of heparin may be dangerous, and alternative treatments need to be given.

CDC will convene a meeting of the Advisory Committee on Immunization Practices (ACIP) on Wednesday to further review these cases and assess their potential significance. FDA will review that analysis as it also investigates these cases. Until that process is complete, we are recommending a pause in the use of this vaccine out of an abundance of caution. This is important, in part, to ensure that the health care provider community is aware of the potential for these adverse events and can plan for proper recognition and management due to the unique treatment required with this type of blood clot.

# STATE ISSUES UPDATED COVID-19 VACCINE ELIGIBILITY GUIDELINES

## Updated March 25, 2021:

- Beginning **April 1, 2021**, individuals age 50-64 years old will be eligible for COVID-19 vaccines.
- Beginning **April 15, 2021**, every Californian age 16 and older will become eligible for COVID-19 vaccines.
- **Mono County is currently vaccinating individuals 16 years and older.**

*Visit [VaccinateALL58.com](https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/VaccineAllocationGuidelines.aspx) for more COVID-19 facts and updates on your eligibility. Let's get you there. Let's #GetToImmunity #VaccinateALL58 #CaliforniaforALL*

---

# “BEYOND THE BLUEPRINT”

Last week, the State announced the next phase in the response to COVID-19 pandemic in California titled “Beyond the Blueprint.”

- Based upon equitable vaccine availability and a consistent low burden of disease
  - Ability to schedule and receive vaccine within 2-week timeframe
  - Hospitalization rate
- The Blueprint for a Safer Economy will be retired.
- Guidelines and restrictions may still be placed on conventions, festivals, and other large events.

# STATE TO ADJUST SMALL COUNTY FRAMEWORK METRICS

- Adjustment expected to be effective for the 04/13 Blueprint tier assignment.
- For small counties (populations less than 106K): In lieu of using adjusted case rates and test positivity to determine if a small county will move to a more restrictive Tier, **absolute case counts and test positivity will be used.**
- Unless there are extenuating circumstances, such as low rate of vaccine take up, a county will only move to a more restrictive tier if hospitalizations are increasing significantly among vulnerable individuals, especially among vaccinated individuals, and both test positivity and adjusted case rates show a concerning increase in transmission.
- The thresholds for counties in specific tiers will be used to reflect the following:
  - A small county that has less than the case count thresholds AND TP *in a less restrictive tier* would earn a week of better metrics
  - A small county that has greater than or equal to the case count thresholds AND TP *in a more restrictive tier* would earn a week of worsening metrics
  - Two consecutive weeks of better or worse metrics with the above criteria results in movement of small county. Minimum 3 weeks in a tier for movement to a less restrictive tier still apply.

# COVID-19 TESTING

## Public Health COVID-19 Testing:

- Rotating testing locations throughout unincorporated Mono County **every Wednesday & Friday between 1:00-4:00pm**

For Updated Weekly Schedule, please visit:

[coronavirus.monocounty.ca.gov/pages/health](https://coronavirus.monocounty.ca.gov/pages/health)

## FREE COVID-19 TESTING

### ★ OPTUMSERVE™ TESTING – Mammoth Lakes

📅 Tuesdays, Wednesdays, Fridays and Saturdays \*indoors

🕒 11:00am – 7:00pm (closed from 3:00 to 4:00pm for lunch)

📍 Mammoth Lakes Foundation  
100 College Parkway

OPTUMSERVE™ TESTING – Mammoth Lakes

→ <https://lhi.care/covidtesting>

Testing is at no cost for the individual regardless of insurance status. Open to all ages. Appointments preferred but not required. Walk-ins welcome.
