MENTAL HEALTH SERVICES ACT

FY 22-23

ANNUAL UPDATE

**MID-YEAR REVISION WITH
NEW INNOVATION PLAN:**

SEMI-STATEWIDE EHR

What is INN Funding?

- According to the DHCS website, the MHSA Innovation (INN) component funds projects designed to test time-limited new or changing mental health practices that have not yet been demonstrated as effective.
- The purpose of the INN component is to infuse new, effective mental health approaches into the mental health system, both for the originating county and throughout California.
- This funding also requires approval by the State MHSOAC (Mental Health Services Oversight and Accountability Commission) prior to the expenditure of funds and after local county INN project review and approval.
- INN funding is really challenging for small counties to spend.

SEMI-STATEWIDE ELECTRONIC HEALTH RECORD INNOVATION FUNDING

PRESENTED BY MONO COUNTY

What is the EHR INN Project?

- Our Semi-Statewide EHR project is developing a customized solution to meet the specific complex business needs of the California Behavioral Health system.
- A streamlined and modern system will save time and allow providers to do what they are most passionate about: serve the community.
- From an administrative perspective, CalMHSA is leading the work on the EHR and is completing the INN plan that will be reviewed by the MHSOAC
