

#	RFP/SOW Page Number	RFP/SOW Section Reference	Question	Answer
QUESTIONS RECEIVED 02/20/24				
1	Page 2	Hazard Profiles Development	<p><i>2. Hazard Identification states: "update the County's Resource Efficiency Plan (REP; AKA Climate Action Plan)."</i></p> <p>Can the County provide guidance on what this is referencing to and include a link to the current Climate Action Plan, or clarify if this is referring to updating the climate change information already incorporated in the current mitigation plan?</p>	<ul style="list-style-type: none"> • The County's "Resource Efficiency Plan" (REP) was updated in 2022 and is located here. Mono County's understanding is that only the sections relating to the impacts of climate change on hazard types would need to be updated and incorporated into the MJHMP. The selected consultant team need not reformat and redraft the REP, only provide the updated sections to staff. • The 2019 MJHMP included a separate Climate Vulnerability Assessment which was incorporated into the final adopted version (uploaded as a separate attachment to the RFP webpage. The selected consultant team is welcome to update this document or simply incorporate climate vulnerability and adaptation into the MJHMP in compliance with SB 379 and SB 1000.
2	Page 2	Hazard Profiles Development	<p>The RFP states: "along with an understanding of the Community Rating System and how to gain points from a hazard mitigation plan or other outreach efforts that align with a plan update."</p> <p>It appears neither jurisdiction currently participates in the CRS program. Can we confirm the County and/or town intends to enter, and if so, when is the anticipated timeline?</p>	<p>Correct, neither the County nor the Town participates in the CRS program (see page 192 of the 2019 MJHMP) and there is no need to address this issue in the MJHMP update.</p>

2	Page 2	Hazard Profiles Development	<p><i>The RFP states: "along with an understanding of the Community Rating System and how to gain points from a hazard mitigation plan or other outreach efforts that align with a plan update."</i></p> <p><i>It appears neither jurisdiction currently participates in the CRS program. Can we confirm the County and/or town intends to enter, and if so, when is the anticipated timeline?</i></p>	<p>Correct, neither the County nor the Town participates in the CRS program (see page 192 of the 2019 MJHMP) and there is no need to address this issue in the MJHMP update.</p>
3			<p><i>Can the County confirm that DocuSign will be allowed?</i></p>	<p>The County accepts digitally signed documents, including DocuSign. However, the County cannot confirm that FEMA and/or CalOES will accept such documents.</p>
4			<p><i>Were the special districts identified in the RFP included in the Scope of Work to FEMA?</i></p>	<p>Yes, all special districts were listed in the Jurisdiction Inventory section of the application and there are several references in the scope of work to working with special districts (including helping to facilitate adoption of the final HMP by local special districts). As part of the application process the County needed to submit letters of intent for all special districts (22 in total). Due to time constraints of the grant application process, staff was unable to obtain letters from the seven special districts (below), which requires follow up.</p> <ol style="list-style-type: none"> 1. Antelope Valley Fire Protection District 2. Bridgeport Fire Protection District 3. Chalfant Valley CSD/FPD 4. Paradise Fire Protection District 5. Wheeler Crest Fire Protection District 6. Lee Vining PUD 7. June Lake PUD
