## **INVESTIGATION REPORT**

**CASE NUMBER:** 15CABDU001662

**CASE NAME:** ROUND

**DATE:** February 6, 2015

**INCIDENT TYPE:** Wildland Fire

**INCIDENT INVESTIGATORS:** Brian TOMINAGA, Fire Captain Specialist – BDU  
Brandon SMITH, Fire Captain Specialist – RRU  
Byron DARRINGTON, Battalion – CSR  
Kelly GALLAHER, Fire Captain Specialist – MVU  
Matt ELLINGTON, Law Enforcement Officer – INF  
Nathan DERR, Deputy Sheriff – Inyo County  
Ron ELDRIDGE, Battalion Chief – CSR  
Shannan HARRIS, Fire Captain Specialist – FKU  
Shane SCOTT, Deputy Sheriff – Inyo County

## 2 - SUMMARY

1 **2 - SUMMARY:**

2 On Friday, February 6, 2015 at approximately 2:38 PM, a wildland fire started West of  
3 Highway 395 at Sherwin Grade approximately 9 miles West of Bishop in Inyo County,  
4 California. The fire, named the ROUND incident, burned approximately 7000 acres in  
5 Inyo and Mono Counties. A total of 53 structures were destroyed or damaged by the  
6 fire. Investigators determined an electrical arc from a downed power line caused the  
7 fire. Strong winds caused the tree to fall which failed the power lines.

## 4 - WITNESSES

1 **4 - WITNESSES:**

2 W-1 Donald Wayne PEREA Jr

3 [REDACTED]  
4 [REDACTED]

5 DOB: [REDACTED]

6 Driver's License: [REDACTED]

7 Phone: [REDACTED]

8 PEREA can testify conditions and events prior to seeing the initial fire.

9

10 W-2 Jeremy MITCHELL

11 Battalion Chief CAL FIRE San Bernardino Unit

12 3800 North Sierra Way

13 San Bernardino, CA 92405

14 Office: (909) 881-6900

15 MITCHELL was the Operations Chief for the ROUND Incident and can testify to initial  
16 fire conditions and fire suppression actions.

17

18 W-3 Paul MELENDREZ

19 Assistant Chief CAL FIRE San Bernardino Unit

20 3800 North Sierra Way

21 San Bernardino, CA 92405

22 Office: (909) 881-6900

23 MELENDREZ was the Incident Commander for the ROUND incident and can testify to  
24 overall fire suppression operations

25

26

27

28

29

30

1 W-4 Nathan DERR  
2 Deputy, Inyo County Sheriff  
3 301 West Line Street  
4 Bishop, CA 93514

5 Office: (760) 878-0383

6 DERR was the first arriving law enforcement at the fire and assigned to the fire  
7 investigation. DERR can testify to initial fire conditions and location in addition to  
8 witness interviews.

9

10 W-5 Wayne DENGAL

11 Bureau of Land Management Law Enforcement Officer

12 300 S. Richmond Rd.

13 Ridgecrest, CA 93555

14 Office: (760) 384-5499

15 DENGAL was assigned to the fire investigation team and can testify to scene security.

16

17 W-6 Shannan HARRIS

18 Fire Captain Specialist CAL FIRE Fresno Kings Unit

19 210 S. Academy Ave.

20 Sanger, CA 93657

21 Office: (559) 493-4300

22 HARRIS was assigned to the fire investigation team and can testify to the origin and  
23 cause.

24

25

26

27

28

29

30

31

1 W-7 Kelley GALLAHER

2 Fire Captain Specialist CAL FIRE San Diego Unit

3 2249 Jamacha Road

4 El Cajon, CA 92019

5 Office: (619) 590-3100

6 GALLAHER was assigned to the fire investigation team and can testify to photographic  
7 evidence.

8

9 W-8 Branden SMITH

10 Fire Captain Specialist CAL FIRE Riverside Unit

11 210 W San Jacinto

12 Perris, CA 92570

13 Office: (951) 940-6900

14 SMITH was assigned to the fire investigation team and can testify to evidence  
15 collection.

16

17 W-9 Jen RICCI

18 Battalion Chief CAL FIRE San Bernardino Unit

19 3800 North Sierra Way

20 San Bernardino, CA 92405

21 Office: (909) 881-6900

22 RICCI was assigned to the fire investigation team and can testify to evidence transport  
23 and documentation.

## 5 - EVIDENCE

1 **5 - EVIDENCE:**  
2 The investigation team collected a total of 22 items of evidence which was documented  
3 on an LE-75e Evidence Log (*see attachment #22*). The evidence collected from near  
4 the origin included power line equipment and sections of tree. SMITH supervised the  
5 collection of evidence. RICCI documented the evidence collection and supervised the  
6 transport of evidence to CAL FIRE San Bernardino Unit Headquarters for storage.  
7 Details of the evidence collection process are documented in SMITH'S supplemental  
8 report (*see attachment#3*) and RICCI'S supplemental report (*see attachment#20*).

## 6 - CONDITIONS

1 **6 – CONDITIONS:**

2 Bishop and Owens Valley has an arid climate, getting an average rainfall of 5.18  
3 inches, and an average snowfall of 6.8 inches annually. The majority of the area's  
4 precipitation occurs in December, January and February. Bishop typically receives  
5 approximately 3 inches of precipitation during the winter months, but there had been  
6 less than 0.2 inches to date at the time of the fire. The average high temperatures for  
7 February are 57.9 degree Fahrenheit, while the average lows are 26 degree  
8 Fahrenheit. During the week leading up to the fire, the RAWS weather data shows the  
9 maximum air temperatures had been in the low 60's and average relative humidity was  
10 around 30%. No significant rainfall had occurred since Friday, December 12, 2014,  
11 when 0.13 inches was recorded by Owens Valley RAWS. On Friday, February 6th the  
12 average relative humidity was 31%; the temperature peaked at 65 degrees Fahrenheit.  
13 Average wind speeds were around 7MPH earlier in the day, but began picking up with  
14 gusts peaking around 8:00 PM, recorded at up to 51 MPH at the Rock Creek RAWs,  
15 although there is anecdotal evidence that they reached up to 70 MPH. The initial attack  
16 fire suppression unit reported south to southeast winds of approximately 70 MPH.

## 7 - EQUIPMENT

1 **7 – EQUIPMENT:**

2 I located damaged power lines within the initially reported fire area. The lines were on  
3 the ground beneath and tangled in a fallen tree. The lines were part of a tap line off the  
4 main north-south power lines. The tap line ran to the east and terminated behind the  
5 residence located at 2164 Old Sherwin Road. During the origin and cause W-6 Fire  
6 Captain Specialist Shannan HARRIS found a portion of the lines to be within the  
7 specific origin area (SOA) and associated with the fire ignition. The power lines were  
8 collected as evidence and are owned by Southern California Edison (SCE). SCE  
9 Edison investigators were allowed to inspect and document the scene before any  
10 evidence was moved or collected. SCE equipment seized as evidence was  
11 documented on a LE-92 Property Report (*see attachment#21*).

## 8 - PROPERTY

1 **8 - PROPERTY:**

2 The fire destroyed 3475 acres of Federal Responsibility Area (FRA) and 3425 acres of  
3 State Responsibility Area (SRA) for a total of 6900 acres in Inyo and Mono Counties.  
4 During the fire, 35 residential structures and 18 nonresidential structures were damaged  
5 or destroyed for a total of 53 structures. Two of the fire structures were in Inyo County  
6 with the remaining 51 structures in Mono County (*see attachment #9*).

7  
8 The residence located at 2164 Old Sherwin Grade Road was nearest to the fire origin.  
9 The home was undamaged by fire but a small shed on the property was completely  
10 destroyed. The roof did appear to have wind damage and a shingle debris field was  
11 found on the ground to the north of the house. Numerous trees on the property  
12 appeared to have been damaged by wind.

## 9 - NARRATIVE

1 **9 - NARRATIVE:**

2 **RESPONSE**

3 On Friday, February 6, 2015 at approximately 2:38 PM, I responded to a wildland fire  
4 West of Highway 395 at Sherwin Grade approximately 9 miles West of Bishop in Inyo  
5 County, California. The fire, named the ROUND incident, burned approximately 7000  
6 acres in Inyo and Mono Counties. A total of 53 structures were destroyed or damaged  
7 by the fire (see attachment #9). I arrived on scene at approximately 7:38 PM.

8

9 **INITIAL BRIEFING**

10 At approximately 7:41 PM, I contacted the Operations, W-2 Battalion Chief Jeremy  
11 MITCHELL. MITCHELL told me the fire started near the Talbot Ranch on Lower Rock  
12 Creek Road which is also known as Old Sherwin Road. He told me W-4 Inyo Sheriff  
13 Deputy Nathan DERR had additional information about the initial fire area and possible  
14 fire cause. I asked MITCHELL about the fire origin area. MITCHELL told me there  
15 were numerous downed power lines in the area and the Sheriff had the fire area  
16 evacuated with a staffed road closure. We agreed to stay out of the area until daylight.  
17 MITCHELL told me he had previously directed fire suppression units to stay out initial  
18 fire area which had been flagged by the first arriving units.

19

20 **INVESTIGATION**

21 At approximately 7:52 PM, I contacted Incident Commander, W-3 Assistant Chief Paul  
22 MELENDREZ and Unit Duty Chief, Assistant Chief Jeff VEIK by phone to request  
23 additional officers to support the fire investigation. At approximately 8:22 PM, I  
24 attempted to contact DERR by phone without success and left a voice mail. At  
25 approximately 8:26 PM, I contacted California Southern Region (CSR) Law  
26 Enforcement Assistant Chief Andy ANDERSEN by phone to request additional officers  
27 to support the fire investigation. At approximately 9:30 PM, I traveled to CAL FIRE  
28 Owens Valley Camp to brief CAL FIRE San Bernardino Unit Executive Staff on the fire  
29 investigation expected commitments and support needs.

30

1 SATURDAY, FEBRUARY 7, 2015

2 At Owens Valley Camp at approximately 6:30 AM, I briefed MELENDREZ on the status  
3 fire investigation and requested additional personnel to assist with the investigation.

4 MELENDREZ told me to order who I needed from the Emergency Command Center  
5 and requested additional assistance from cooperating agencies. W-12 US Forest  
6 Service Law Enforcement Officer Matt ELLINGTON, W-5 Bureau of Land Management  
7 Law Enforcement Officer Wayne DENGAL and Inyo Sheriff Deputy DERR were at the  
8 camp and agreed to assist with the investigation. We traveled to 2164 Old Sherwin  
9 Road to continue the investigation.

10  
11 DERR told me at 2:05 PM he was dispatched to the fire. He responded to 2164 Old  
12 Sherwin Road to evacuate the home. After clearing the home, he looked behind the  
13 home. He found power lines and a tree down on the ground. The top of the tree was on  
14 fire and the grass was back burning near the base of the tree. The fire was  
15 approximately three to five acres and had not crossed Lower Rock Creek Road which is  
16 also known as Old Sherwin Road. DERR told me he left the residence when fire  
17 personnel arrived and spent the remainder of his shift conducting evacuations. I placed  
18 additional to further protect the fire area identified by DERR. I assigned DERR to  
19 witness interviews of residents in the area. I assigned ELLINGTON to witness  
20 interviews of initial attack fire suppression personnel and reporting parties. I assigned  
21 DENGAL to night security and asked him to return at 5:00 PM to secure the scene.

22  
23 At approximately 9:36 AM, DERR contacted W-1 Donald PEREA at [REDACTED]  
24 [REDACTED] approximately 1/4 mile northwest of the initial fire area. During the interview,  
25 PEREA told DERR he was working near his shop on Friday, February 6, 2015 when his  
26 radio and work light went out at about 2:00 PM. PEREA looked to the south towards  
27 Walter SCHOBERS residence located at [REDACTED] PEREA saw a  
28 "flash" then "ten foot flames" behind the residence. PEREA called 911 on his cell  
29 phone at approximately 2:02 PM. PEREA quickly drove to inform SCHOBERS who was  
30 not home. PEREA saw the trees behind the residence on fire and feared the residence

31

1 would burn. PEREA returned to his residence and began evacuating livestock. DERR  
2 identified PEREA as the original reporting party to the Sheriff's Office at 2:03 PM on  
3 Friday, February 6, 2015.

4

5 SUNDAY, FEBRUARY 8, 2015

6 At approximately 7:00 AM, we had a team briefing at the US Forest Service Visitor  
7 Center in Bishop, CA. I assigned W-6 Fire Captain-Specialist Shannan HARRIS to the  
8 origin and cause investigation. I assigned ELLINGTON to assist HARRIS with the  
9 origin and cause investigation (O&C). W-7 Fire Captain-Specialist Kelly GALLAHER  
10 was traveling from CALFIRE San Diego Unit and would be arriving later that day. We  
11 traveled to the scene located at 2164 Old Sherwin Road.

12

13 At approximately 8:30 AM, DERR briefed HARRIS on the initial fire area. HARRIS  
14 began the O&C at approximately 9:00 AM by walking the perimeter of an approximately  
15 seven to ten acre area completely encompassing the fire area described by DERR.  
16 During the investigation, HARRIS was able to determine a general origin area (GOA) of  
17 approximately 80 feet by 50 feet. HARRIS located a tree approximately 70 feet in  
18 height and power lines within the GOA. HARRIS narrowed the GOA down to a specific  
19 origin area (SOA) approximately 10 feet by 10 feet. HARRIS located two power lines  
20 underneath and tangled in the fallen tree within the SOA. Within the SOA, HARRIS  
21 located an ignition area approximately eight feet by eight feet. HARRIS located multiple  
22 spots on the ground consistent with power line arcing. HARRIS located metal  
23 fragments consistent with power line arcing.

24

25 At approximately 10:30 AM, DERR contacted SCHOBBER. During the interview,  
26 SCHOBBER said he left his residence at about 1:30 PM on Friday, February 6, 2015.  
27 SCHOBBER said he drove to Bishop, CA to pick up his dogs from the groomer and to go  
28 the hardware store. While driving home, SCHOBBER noticed the smoke and emergency  
29 vehicles. As he drove closer he noticed the fire was at his residence. SCHOBBER  
30 noticed several trees down on his property but did not have any further information.

31

1 At approximately 3:00 PM, GALLAHER arrived at the incident. I directed her to Owens  
2 Valley Camp to assist HARRIS with aerial photos. At approximately 4:00 PM, HARRIS  
3 and GALLAHER flew in CAL FIRE Helicopter 305 to photograph the fire and origin  
4 area.

5  
6 At approximately 5:00 PM, DENGAL reported to the scene to assume night security.  
7 The remainder of the investigation team departed for the night.

8  
9 IMONDAY, FEBRUARY 9, 2015

10 At approximately 7:30 AM the team arrived at the scene to continue the investigation.  
11 GALLAHER reviewed the O&C completed the previous day. GALLAHER observed the  
12 burn indicator flags placed by HARRIS and concurred with his findings. HARRIS and  
13 GALLAHER systematically walked the GOA photographing burn indicators and areas  
14 pertinent to the O&C. At approximately 1:00 PM, HARRIS and GALLAHER flew in  
15 Helicopter 305 to take additional aerial photographs.

16  
17 At approximately 12:05 PM, Ellington contacted W-13 Bishop Fire Chief Ray SEGUINE  
18 and W-14 Bishop Firefighter Steve LINDERMAN. SEGUINE and LINDERMAN placed  
19 the fire near the SCHOBBER residence when they arrived at the incident. LINDERMAN  
20 noticed a large tree had knocked down a power line west of the house. They could not  
21 provide any further information.

22  
23 At approximately 5:00 PM, DENGAL reported to the scene to assume night security.  
24 The remainder of the investigation team departed for the night.

25  
26 TUESDAY, FEBRUARY 10, 2015

27 At approximately 7:30 AM the team arrived at the scene to continue the investigation. I  
28 assigned W-15 David KAROLY, W-16 Dan GREGORY and W-17 Jeffery GAWRONSKI  
29 to document the scene. KAROLY, GREGORY and GAWRONSKI are CAL FIRE  
30 professional surveyors and were assigned as an evidence mapping team. The

1 evidence mapping team conducted geospatial scene documentation of the origin area  
2 including a LiDAR scan. After they had completed, the SCE investigation team was  
3 allowed access to complete a LiDAR scan prior to continuing with the investigation.  
4

5 Michael MAHONEY, a certified arborist, inspected the trees near the origin area.  
6 MAHONEY told me there was a number of trees which showed signs of significant  
7 wind damage. For the tree that fell into the power lines, MAHONEY determined one of  
8 the three main root stems of the tree had decayed. The decayed stem happened to be  
9 in alignment with the direction of the wind. The weakness in the tree and the high  
10 winds combined to cause the tree to fail. MAHONEY told me the weakness would not  
11 have been visible prior to the event.  
12

13 At approximately 11:30 AM, I was contacted by SCHOBBER who came by his residence  
14 to pick up some personal items. SCHOBBER told me a SCE vegetation management  
15 crew had trimmed the trees near the power lines approximately 2 to 3 weeks ago. He  
16 pointed out small piles of tree trimmings that the crew had left. SCHOBBER told me  
17 there were no problems with the power lines or the electrical service to his knowledge.  
18

19 At approximately 2:00 PM, I was contacted by PEREA. PEREA gave me a written  
20 statement he had completed at the request of DERR (*see attachment #15*). After  
21 reviewing the written statement, I noticed inconsistencies between his written statement  
22 and the interview conducted by DERR. I assigned SMITH to conduct a follow up  
23 interview with PEREA at his residence. I assigned GALLAHER to assist SMITH and  
24 photograph the view from PEREA's residence. At approximately 2:37 PM, SMITH and  
25 GALLAHER interviewed PEREA at his residence located at [REDACTED]  
26 During the interview, PEREA located the fire start near Edison Pole #1854105E, which  
27 was the third pole west of 2164 Old Sherwin Road.  
28

29 At approximately 5:00 PM, DENGAL reported to the scene to assume night security.  
30 The remainder of the investigation team departed for the night.

1 INVESTIGATION WEDNESDAY, FEBRUARY 11, 2015

2 At approximately 7:30 AM the team arrived at the scene to continue the investigation.

3 SMITH examined the burned area where PEREA indicated he saw the fire start.

4 SMITH determined fire indicators were not consistent with a fire start in the area

5 indicated by PEREA the previous day.

6

7 At approximately 9:30 AM, I assigned SMITH to supervise the collection of evidence at

8 the origin. SMITH was assisted by RICCI, GALLAHER, and HARRIS. RICCI

9 documented the evidence and transported the evidence to the evidence locker at San

10 Bernardino Unit Headquarters. GALLAHER photographed the evidence and collection

11 process.

12

13

14 SOUTHERN CALIFORNIA EDISON CONCURRENT INVESTIGATION

15 During the investigation, I was contacted by Scott HAYASHI of Southern California

16 Edison (SCE). HAYASHI requested entry into the scene to conduct his own

17 investigation as the fire involved SCE power lines. I told HAYASHI this was currently a

18 potential criminal investigation and there would be a delay until the scene was

19 documented including a LiDAR scan of the origin area. HAYASHI said his investigation

20 would also include a LiDAR of the origin area. The SCE LiDAR team was allowed to

21 complete a scan immediately after CAL FIRE team. SCE was provided access to

22 conduct their concurrent investigation after both LiDAR scans were completed. SCE

23 was allowed to document the evidence collection process.

24

25

26

27

28

29

30

31

1 CONCLUSION

2 Extreme winds caused a tree near the power lines to fall. The tree contacted and then  
3 caused the power lines to break. As the tree fell, pulling down the power lines,  
4 electrical arcing ignited ground vegetation. Strong, erratic winds and dry conditions  
5 allowed for rapid fire development. The investigation determined SCE had maintained  
6 tree clearance of the power lines and the tree could not have been identified as a  
7 hazard tree prior to the incident. No violations were noted and the case is closed with  
8 no further action.

1 **Investigation:**

2

3 On Saturday, February 7, 2015, at approximately 10:30 AM, I was contacted by Fresno  
4 Emergency Command Center (ECC) and was advised to respond to a wildland fire in Inyo County  
5 near the Community of Bishop. I responded at approximately 12:30 PM, and arrived at  
6 approximately 6:00 PM, at the United States Forest Service (USFS) visitor center for a briefing with  
7 the other fire investigators to assist with the origin and cause fire investigation. Upon my arrival I  
8 contacted Fire Captain Brian TOMINAGA who gave me a brief synopsis of what took place when he  
9 arrived at scene. TOMINAGA assigned me to conduct the origin and cause fire investigation, along  
10 with CAL FIRE, Fire Investigator Kelly GALAHER to assist me.

11

12 On Sunday, February 8, 2015, at approximately 7:00 AM, the team met for a briefing at the  
13 USFS visitor center minus GALAHER who was enroute from CAL FIRE San Diego Unit. After  
14 briefing we met at the fire at approximately 8:30 AM, along with Inyo County Sheriff Deputy Nate  
15 DERR, who was the first one at scene the day the fire started. DERR briefed me on what he saw,  
16 and told me where he saw the fire. DERR told me it was behind the house located at 2164 Old  
17 Sherwin Grade Road and approximately 3-5 acres in size, and pushing toward Old Sherwin Grade  
18 Road. I took some overall photos of the fire area where DERR told me the fire was at when he  
19 arrived at scene.

20

21 I started my origin and cause investigation at approximately 9:00 AM. I started at the house  
22 and walked up the left flank of the fire in a north westerly direction of the fire working clockwise and  
23 read fire indicators such as, charring, protection areas, sooting and staining. I walked into the burn  
24 and worked my way to the right flank of the fire, as I was walking I continued to observe fire  
25 indicators. I started to work down the right flank of the fire until I reached the spot where I started  
26 walking from. I walked approximately 7-10 acres encompassing the 3-5 acres where DERR first saw  
27 the fire. I took overall photos of the area I walked. I walked again starting at house and started  
walking up the right flank in a counter clockwise direction. I walked the same path as I did before

1 continuing to read fire indicators. I continued to walk counter clockwise direction until I reached the  
2 house.

3 I walked back up the right side of the fire and crossed into the burned area where I observed  
4 the most destructive area due to the fire. As I was walking in the fire area I observed a large amount  
5 of asphalt shingles. I also observed a small piece of what appeared to be a power line clamp. I  
6 placed a tag labeled number one at the location to identify the clamp. I also place number two,  
7 three, four, and number five tags to identifying asphalt shingles, and to identify how far they were  
8 blown from the roof of the house. I continued to work from side to side in a west and east direction  
9 observing macro and micro fire indicators such as charring, protection areas, sooting, staining and  
10 damage differential, I worked from the most destructive to the least destructive. As I was walking, I  
11 was observing advancing movement of the fire and placed red flags indicating the advancement of  
12 the fire. I also observed lateral movement of the fire and place yellow flags indicating such. I  
13 continued to work toward the heel of the fire in a south direction. The advancement of the fire  
14 narrowed to approximately 25 feet wide area, advancing to the north. I continued to observe lateral  
15 movement on both sides (west and east) of the advancement of the fire. I walked around the heel of  
16 the fire in a counter clockwise direction and observed backing burn indicators. I continued to walk  
17 until I started to observe lateral movement of the fire and no more backing indicators. I stopped and  
18 walked back around the heel of the fire in a clockwise direction and observed backing burn  
19 indicators. I placed blue flags indicating backing burn indicators. I walked into the burned area  
20 where I showed advancing and lateral movement. I continued to work in a south direction; I was  
21 able to narrow the fire down to a general origin area (GOA). The GOA was approximately 80 feet by  
22 50 feet. Within the GOA I observed a large tree approximately 70 feet in height that had fallen.  
23 Within the fallen tree, I observed a power line wrapped in a smaller tree that was still standing. Also  
24 within the GOA, I observed a small branch with two small burn marks that are inconsistent with the  
25 direction of the fire. I place tags six and seven at the burn marks location on the branch. The two  
26 small burn marks are approximately one inch by two inches in size. I also observed a power pole  
27 (1854 107E) approximately 40 feet east of the GOA and another power pole (1854 106E) west of the  
28 GOA at approximately 150 feet. I observed part of the north power line that had broke at the cross  
29 arm insulator from the power pole to the east of the GOA. I also observed the south power line  
30 broken at mid span. Also within the GOA, I located what appeared to be two types of phone cables.  
31 One section of one of the cables was still connected to the east pole and under the fallen tree. The  
32 other section was found on the west side of the GOA. The other cable was found in two sections,  
33 one on the east side of the GOA and the other section was found on the west side of the GOA. I  
34 continued to work and observe micro and macro burn indicators within the GOA. I was able to

1 narrow the GOA down to a specific origin area (SOA) of 10 feet by 10 feet by reading micro burn  
2 indicators. The indicators I observed were charring, sooting, cupping, protection areas and low in  
3 high out on saw grass. Within the SOA I located two power lines lying on the ground and wrapped in  
4 the fallen tree and under the tree. With the power lines wrapped in the tree and underneath the tree  
5 tells me the tree had fallen into the power lines causing both north and south power lines to break.  
6 Within the SOA I located an ignition area approximately eight feet by eight feet. Within the ignition  
7 area I located multiple spots where both north and south power lines appeared to have arced on the  
8 ground. I also located multiple metal fragments that appear to be from the power lines. At  
9 approximately 4:00 PM, myself GALAHER flew in CAL FIRE helicopter to take aerial photos of the  
10 fire.

11

12 On Monday, February 9, 2015 at approximately 10:00 AM, fire investigator GALAHER took  
13 photos of the fire. GALAHER took photos of the GOA, SOA, burn indicators and overall fire (see  
14 GALAHER'S photo log). Also GALAHER conducted a sketch of the GOA. At approximately 2:00  
15 PM, Southern California Edison (SCE) was allowed to have their Laser Imaging Detection and  
16 Ranging (LIDAR) team in the fire scene to take measurements.

17

18 On Tuesday, February 10, 2015 at approximately 8:00 AM, SCE, LIDAR team returned to  
19 complete their measurements and was finished at approximately 10:00 AM. At 10:00 AM, Southern  
20 California Edison (SCE) employees were allowed in the fire scene to inspect their power lines and  
21 power poles. Also SCE employees were allowed to conduct their own fire investigation. SCE  
22 finished their fire investigation at approximately 4:00 PM. At approximately 4:15 PM I spoke to  
23 Steve LINDERMAN who is with the Volunteer fire company out of Bishop, and was the first fire  
24 suppression equipment at the fire's origin. LINDERMAN told me when he arrived at scene he  
25 observed fire within the fallen tree and two out buildings on fire. LINDERMAN told me the fire was  
26 pushing to the north, and he and his crew of three were doing fire suppression on the two buildings.  
27 LINDERMAN also told me, after the fire was contained at the heel of the fire he started to mop up  
28 hot spots around the GOA including the fallen tree and that's when he observed the power lines.  
29 LINDERMAN told me he flagged off the area for firefighter safety. LINDERMAN also told me while  
30 they were in conducting fire suppression and mopping up the fire, trees continued to fall with the  
31 heavy wind.

32

33

34

1 On Wednesday, February 11, 2015, CAL FIRE, Fire Investigator Branden SMITH was  
2 assigned to collect evidence within the GOA and SOA. SMITH collected the north power line that  
3 had what appeared to be arc marks. SMITH also collected metal pieces that appeared to be splatter  
4 coming from the arcing of the north power line. SMITH also collected the south power line; it too  
5 appeared to have arc marks. SMITH also collected metal pieces that appeared to be splatter coming  
6 from the arcing of the south power line. SMITH also collected pieces of the tree that were in contact  
7 with both the north and south power lines. SMITH also collected the branch that was identified as  
8 tags six and seven; the branch has two burn marks on it. SMITH also collected what appeared to be  
9 a power line clap that was identified as tag number 1. SMITH also collected two what appeared to  
10 be phone cables, which were located within the SOA and GOA. See SMITHS report to get correct  
11 times of evidence collection.

12 The following sources of ignition were ruled out as a cause for this fire:

13

14 Lightning –No lightning activity reported in the area and the sky was clear. A search Bureau of Land  
15 Management (BLM) lightning detection map shows no strikes in the prior 72 hours.

16 Smoking – No cigarettes or other smoking materials were located in the GOA and SOA.

17 Debris Burning – I did not locate any debris burning within the GOA and SOA.

18 Vehicles – I did not locate any vehicles at or near the GOA and SOA.

19 Equipment use – There were no signs of equipment use in the GOA and SOA.

20 Railroad – There are no railroad tracks on the property.

21 Fireworks – No remnants of fireworks were observed in the GOA and SOA. There were no fireworks  
22 wrappers, or other signs of fireworks activities in the area.

23 Spontaneous Combustion – Within the GOA and SOA there were no piled organic debris such as  
24 grass or hay and no oily rags which would support a spontaneous combustion caused fire.

25 Campfire – There was no signs of a campfire in or near the GOA or SOA.

26 Shooting – I did not locate any shell casings or bullet fragment associated with shooting.

27 Equipment – I did not located any equipment in or around the GOA and SOA

28 Arson – I did not locate and incendiary devices, or arson paraphernalia with in the GOA and SOA.

29 Playing with fire – I did not locate any activities associated with someone playing with fire. The  
30 residents were not home at the time of the fire. There are no kids living on the property.

Based on my training, education, experience, knowledge and statements from DERR and the first arriving fire suppression equipment operator LINDERMAN; I was able to rule out all other possible causes of a fire starting with the exception of power lines. It was apparent that the fire started with in the ignition area that I located. I found multiple spots within the ignition area where it appeared the power line had arced and splattered metal. The cause of the fire is due to a fallen tree into power lines and the power lines arcing and started a fire in the vegetation.

Item#A- Sketch of approximate location of fire on my arrival with digital image from google earth.

Item#B- Sketch of approximate location of fire on my arrival on a digital topographic map.

Item#C- Inyo County Sheriff's Department CAD Incident Report for Incident# 1502060023.

**Evidence:**

Item#1- Audio CD containing interview with Donald Perea.

Item#2- Audio CD containing Donald Perea's initial 911 call.

**Chain of Evidence:**

Item#1- On 02-07-2015, at about 0936 hours, I recorded my interview with Perea with my personal digital audio recorder. On 02-09-2015, at about 0800 hours, I downloaded and burned the audio recording onto a Compact Disc. On 02-09-2015, I forwarded the compact disc to Cal-Fire investigator Tominaga.

Item#2- On 02-08-2015, I received a digital copy of Perea's 911 call from Dispatcher Frew. On 02-08-2015, at about 0800 hours, I downloaded the digital copy onto a compact disc and forwarded to compact disc to Cal-Fire investigator Tominaga.

**Details:**

On 02-06-2015, at about 1405 hours, I was dispatched with fire personnel to a vegetation fire near the Talbot Ranch on Lower Rock Creek Road (AKA Old Sherwin Road).

I arrived on scene and began evacuation procedures at the Schober residence located at [REDACTED]. The residence is further described as a white single story ranch style home with several wood outbuildings to the north and east of the main residence. I cleared the main residence attempting to evacuate any occupant's. No occupants were located inside the main residence.

I walked around the exterior of the main residence looking for garden hoses or sprinklers which could be used to keep the fire from burning the residence, with negative results. As I walked around the southwest corner of the residence I saw power lines hanging down to the ground from the wood telephone pole next to the residence. The power lines continued west along the ground where they intersected with a down tree. The tree was lying on the ground with the top pointing to the north east, directly at Lower Rock Creek Road. At that time the fire was burning north / northeast toward Lower Creek Road. The southern flank of the fire was approximately 150 feet from the back of the residence. The top portion of the tree was of fire and the grass under the tree was back burning near the base of the tree. From my vantage point the north flank of the fire had not crossed Rock Creek (Rock creek runs west to east approximately 100 yards from the residence). The head of the fire was already burning on the west shoulder of Lower Rock Creek Road. Due to rapid fire spread

and heavy wind driven smoke I was unable to gather more precise distances. Refer to Attachment #A.

As I walked back to my patrol vehicle I contacted Walter "Walt" Schober, who had pulled into the driveway while I was conducting my evacuation procedure. I spoke briefly with Schober who verbally identified himself as the [REDACTED] of the house. Schober said he was going to move his vehicle out of its wood parking structure and then leave the area.

Fire personnel arrived at the residence and I proceeded approximately one quarter of a mile north to 2180 Old Sherwin Road. As I drove to 2180 Old Sherwin Road, I noticed the fire had jumped Lower Rock Creek Road and was burning on the east shoulder of Lower Rock Creek Road.

After conducting evacuation procedures at 2180 Old Sherwin Road the wind shifted to the north and the fire began heading north along Lower Rock Creek Road. I spent the remainder of my shift conducting evacuation procedures.

On 02-07-2015, I was assigned to assist Fire Prevention Officer Tominaga with fire investigation.

On 02-07-2015, at about 0936 hours, I contacted Donald "Don" Perea, who resides at [REDACTED]

Perea told me the following in summary:

On 02-06-2015, He was working near his shop using a light and listening to the radio. At about 1400 hours, Perea said his radio stopped playing and his work light went out. Perea then looked to the south toward "Walt's" place (referencing Walter Schober's residence at [REDACTED]) Perea saw a "flash" then "ten foot flames" behind Schober residence. Perea used his cellular telephone to call 911 since his land line telephone was not working. The call record from Perea's cellular telephone showed a 911 call at 1402 hours, on 02-06-2015. Perea quickly drove to [REDACTED] to inform

Schober. Schober was not at the residence. Perea saw the trees behind Schober's residence on fire and feared Schober's residence would be burned. Perea returned to his residence and began evacuating livestock at the ranch.

I ended my interview with Perea and requested him to complete a written statement form.

I attempted to contact Schober through-out the day with negative results.

I checked the Inyo County Sheriff dispatch incident log to find the original reporting party. The incident report showed Don Perea as the original reporting party to the Sheriff's Office at 1403 hours, on 02-06-2015. I spoke with dispatcher Frew who stated there were two calls following Perea reporting the fire. No information for the callers was gathered, due to the incident previously being reported. Frew noted that the two following calls had no pertinent information and the callers could only inform him of smoke in north end of Round Valley.

On 02-08-2015, at about 1030 hours, I contacted Schober near the road closer for the fire on Lower Rock Creek

Road.

Schober told me the following in summary:

On 02-06-2015, at 1330 hours, he left his residence and drove to into town (Bishop) to pick-up his dogs from the groomers. After retrieving his dogs and running to the hardware store he began returning to his residence. While driving to his residence he was passed by emergency personnel. Schober then saw the smoke column and though it might be on the "mesa" a nearby housing community. As Schober drove closer he noticed the fire to be at his residence. Schober noticed several trees down on his property but did not know where the fire started. Prior to leaving his residence Schober did not notice anything unusual. Schober had no further information.

I ended my interview with Schober.

As of this report I have not received a written statement from Perea.

I was unable to locate any further witnesses at the time of this report.

**Case Status:**

Open / Forwarded to CAL-Fire.

| DAY | MONTH | DATE | YEAR | COUNTY | REGION | UNIT | CASE NUMBER   |
|-----|-------|------|------|--------|--------|------|---------------|
| Fri | Feb   | 6    | 2015 | Inyo   | CSR    | BDU  | 15CABDU001662 |

1 On February 10, 2015, at approximately 2:00 PM, while assigned to the Round Fire as a fire  
2 investigator, Fire Captain Specialist Brian TOMINAGA assigned me to obtain witness statements  
3 from Donald PEREA. PEREA handed TOMINAGA a written statement that PEREA wrote.  
4  
5 I met with PEREA, who I identified by his CDL, at approximately 2:37 PM, at his home located at  
6 [REDACTED] – County of Inyo. PEREA resides about a quarter of a mile  
7 northwest from the ignition area. Fire Captain Specialist Kelly GALLAHER attended the interview as  
8 well. PEREA walked me to his back patio where he first saw the fire. PEREA told me he was working  
9 on his property and noticed the wind started to blow around 10:00 AM. At about 12:30 PM, PEREA  
10 told me the wind conditions worsened to the point where PEREA could no longer work in. PEREA  
11 began to eat lunch at about 1:30 PM, when he noticed strong gusts of wind rattle the house. PEREA  
12 went out back and tied down his patio furniture and spa cover. PEREA noted the wind was a south  
13 wind. At about 1:45 PM, PEREA was inside his home and looking south through his glass rear door.  
14 PEREA saw a bright flash of light off to the left or southeast area. PEREA looked back at his kitchen  
15 light and realized the electrical power went out. PEREA turned back and then noticed a small fire  
16 burning in the open pasture approximately 1200' to 1500' southeast of him. PEREA described this  
17 fire to be small with about two (2) foot flame lengths. Within seconds PEREA noticed the fire grew  
18 substantially and the fire was then producing about "10' to 12', if not more", vertical flame lengths.  
19 PEREA told me the dry grass in the pasture was about six (6) inches or less. PEREA also told me  
20 the wind was extremely strong to about the strongest he had felt in the 30 plus years he had lived in  
21 the area. PEREA set up his spotting scope to the location he believed he first saw a fire. I observed  
22 this area through the spotting scope and noticed he placed the fire at about Edison Pole #  
23 1854105E, which was the third pole west of the home located at 2164 Old Sherwin Road. The  
24 ignition area was later determined to be to the west of the home located at 2164 Old Sherwin Road.  
25 There were two (2), 12KV power lines routing east and west through this pasture; one (1) north  
26 power line and one (1) south power line. PEREA attempted to call 911, but was not able to connect  
27 the call.

1 PEREA drove his pickup to the home located at 2164 Old Sherwin Road to help evacuate. PEREA  
2 drove west on the dirt driveway, did not observed any fire on the south side of the house, and parked  
3 on the east side of the home. PEREA told me as he ran across the foot bridge towards the front  
4 door, which was on the east side of the home, when he observed the entire backyard "engulfed in  
5 flames." PEREA only saw fire on the north side of the house, but never walked around the  
6 residence. PEREA described "all the trees" between both ranches were engulfed in flames. PEREA  
7 discovered no one was home. PEREA called 911 again at 2:02 PM, and was able to report the fire.  
8 PEREA left the property and returned home to provide protection against the flames. PEREA told me  
9 he drove through walls of fire along Old Sherwin Road. The fire was on both sides of the road and  
10 moving in a northwest direction. PEREA told me the pastures burned later in the incident and after  
11 the main fire passed his house.  
12

13 PEREA walked GALLAHER and I to the spot he first saw a fire. PEREA walked us to about 50' north  
14 of the third power pole as mentioned above. I noted the south power line lying on the ground  
15 between the Edison Pole #1854106E and Edison Pole #1854105E, but the power line remained  
16 attached to both poles. The section of power line lying on the floor was about 85'. PEREA told me he  
17 only saw one fire and it was at the location we were standing. PEREA could not correlate the bright  
18 flash of light to the location he saw a fire start. I looked back towards PEREA's home and noticed a  
19 culvert between us and the home. PEREA described the culvert was overgrown with trees, brush,  
20 and wild rose bushes. I noticed the burned trees stood taller than PEREA's house when looking  
21 northwest from my position.  
22

23 Continued Investigation:

24 On Wednesday, February 11, 2015, I examined the burned wild land fuels in the area where PEREA  
25 indicated he saw a fire start. I noted the brown grass was about two (2) inches to six (6) inches. I  
26 took photographs illustrating the fire pattern which indicated the fire's forward movement came from  
27 the southeast, east direction. More specifically, the majority of the individual indicators illustrated the  
28 fire moved towards, not away from, the area PEREA saw a fire start. The burn indicators showed low  
29 in and high out, cupping, white ash, and protection, refer to photographs P-BS-01 through P-BS-15.  
30

31 On Wednesday, February 11, 2015, at about 09:30 AM, TOMINAGA assigned me to document and  
32 collect the materials or evidence involved in the ignition of the fire. Fire Captain Specialist Shannan  
HARRIS and GALLAHER, and Battalion Chief Jennifer RICCI assisted me in marking, labeling, and

1 collecting the evidence. I assigned RICCI to complete the evidence log and property receipt as we  
2 collected each item. Previously, TOMINAGA assigned HARRIS to conduct the fire's origin and cause  
3 investigation and GALLAHER was assigned to photograph. HARRIS identified the Specific Origin  
4 Area (SOA) and the potential ignition source, the power lines, found within. HARRIS told me two (2),  
5 12KV power lines were lying beneath an approximately 70' tree in the SOA. I also observed the  
6 power lines and the down tree. The two power lines routed east and west and terminated behind the  
7 home located at 2164 Old Sherwin Road. HARRIS had marked evidence and items of interest one  
8 (1) through seven (7). HARRIS used his evidence markers for labeling. I walked the GOA and the  
9 SOA while HARRIS showed me each item he marked. HARRIS told me items two (2) through five  
10 (5) are photographed and not considered factors in the ignition sequence and therefore not  
11 collected. I did not collect items 2 through 5. I assigned GALLAHER to photograph the process of  
12 collection and preservation of evidence. Refer to her photographs.

13  
14 TOMINAGA told me Edison Representatives would be accompanying me during the collection of  
15 evidence. TOMINAGA told me they would be observing and photographing the evidence collected. I  
16 was introduced to three (3) Edison Representatives by their first name only; Greg, Scott, and Tom.  
17 Tom told me he was Edison's fire investigator. Greg and Scott told me they were Edison's claims  
18 investigators.

19  
20 At approximately 10:00 AM, I started to collect and tag each item collected. Having items labeled 1  
21 through 7 already by HARRIS, I started with evidence label #8. I identified the north power line as  
22 item 8. However, the power line was not intact as it suffered significant arc and mechanical damage.  
23 An approximately 70' tree collapsed on the two, 12KV power lines. The entire north power line  
24 remained as item 8, but each section collected was given an alphabetical number as well (8a, 8b, 8c,  
25 etc...). I identified the south power line as item 9. The south power line also suffered the same  
26 damage. The entire south power line remained as item 9, but each section collected was given an  
27 alphabetical number as well (9a, 9b, 9c, etc...). Greg, Scott, and Tom agreed to this system. I  
28 started to collect items which were affixed to Edison Pole 1854107E. GALLAHER and an Edison  
29 linesman were lifted up in a boom and bucket to disconnect the remaining power lines sections from  
30 Edison Pole 1854107E. The entire first span, north power line was collected first. The entire first  
31 span, south phase power line was collected second. Greg, Scott, and Tom agreed to this process as  
32 well. The first span routed from Edison #1854107E to #1854106E. The first span of power lines  
suffered the most damage in and around the 70' tree. To preserve the damaged power lines as

1 much as possible, the power lines were cut using bolt cutters. Greg, Scott, and Tom all agreed to cut  
2 the power lines and they specifically designated or concurred to the cutting location. I labeled each  
end of power line with a corresponding number to ensure the ends will be matched up at a later date.  
4 The ends of the north power line (Items 8a thru 8e) were labeled 1 through 9. The ends of the south  
5 power line (Items 9a thru 9g) were labeled 1 through 14.

6  
7 The second span, north and south, was pulled and collected by Edison Linesman's after I collected  
8 the first span. A small section of the first span, north power line was pulled and collected by Edison  
9 linesman's as well. TOMINAGA stood and observed their process. I later took possession of the  
10 small section of the first span, north power line, and the second span of both north and south power  
11 lines.

12  
13 After collecting items 8 and 9, I returned to item 1 and 6 and 7. Items 6 and 7 were actually one item,  
14 a tree branch, but the two numbers illustrated the burned marks on the branch. The tree was also cut  
15 at sections where the power lines, telephone and cable lines and the tree rested on each other. The  
16 tree sections were marked and collected as evidence item 10a, 10b, 10c, and 11. I then collected the  
17 telephone and cable lines as well. I labeled the telephone and cable lines as item 12a, 12b, 12c, and  
18 12d.

19  
20 HARRIS assigned me to use a magnet in the SOA in attempts to locate any ferrous metal. I did not  
21 locate any ferrous metal.

1 **NARRATIVE:**

2

3 On Sunday, February 8, 2015, at approximately 6:30 AM, I responded to the Round fire, near  
4 the community of Bishop, California.

5 At approximately 3:00 PM, I arrived on scene of the fire. Fire Captain Specialist Brian  
6 TOMINAGA assigned me to take photographs pertaining to the origin and cause investigation.

7 At approximately 3:45 PM, Fire Captain Specialist Shannan HARRIS and I flew in CAL FIRE  
8 Helicopter 305 (H305). I took photographs during the flight (*see attachment #1 and #2; photographs*  
9 *P-KG-001 thru P-KG-033*).

10 On Monday, February 9, 2015, at approximately 7:30 AM, I arrived near the origin of the fire.  
11 I observed the burn indicator flags previously placed by HARRIS and I concurred with his findings. I  
12 took a video of the GOA. The video is time stamped on February 9, 2015 at 8:57:42 AM. The date  
13 is correct although the clock was fast by 56 minutes. The approximate time the video was taken was  
14 at 8:01 AM. I took overall photographs of the general origin area (GOA). HARRIS and I  
15 systematically walked the GOA from advancing burn indicators, to lateral burn indicators and to  
16 backing burn indicators. I took photographs of burn indicators and the area pertaining to origin and  
17 cause investigation (*see attachment #1 and #2; Photographs P-KG-034 thru P-KG-0216*).

18 At approximately 1:00 PM, HARRIS and I flew in H305. I took photographs during the flight  
19 (*see attachment #1 and #2; photographs P-KG-217 thru P-KG-237*).

20 On Tuesday, February 10, 2015, at approximately 7:30 AM, I arrived near the origin of the  
21 fire. I took a photograph during a witness interview conducted by Officer Branden SMITH (*see*  
22 *attachment #1 and #2; photograph P-KG-238*).

23 On Wednesday, February 11, 2015, at approximately 7:25 AM, I arrived near the origin of the  
24 fire. At the direction of Fire Captain Specialist Branden SMITH, I assisted with evidence collection  
25 and took photographs throughout the evidence collection process (*see attachments #1 and #2;*  
26 *photographs P-KG-239 thru P-KG-425*).

**Physical Evidence**

(28) Twenty-eight digital photographs of the Talbot Ranch.

Two Compact Discs containing audio recordings of the 28 digital photographs, my interviews with Bill Talbot, Don Perea, Walt Schober, Joe Mendiburu, Earlene Beaver, and Bert Brown. I was unable to record my entire interview with Mendiburu due to my audio recorder malfunctioning. I was unable to record my interview with Cherie Hoersting due to my audio recorder malfunctioning.

**Chain of Evidence**

I downloaded the photographs and my interviews onto my computer and onto two Compact Discs. I attached one Compact Disc to this report to be forwarded to Cal-Fire Investigator Brian Tominaga. The second Compact Disc is and will remain with this case file.

**Attachments**

(1) One Compact Disc

(1) One page containing Mendiburu's visitation log from Sunday, February 1, 2015 to Sunday, February 15, 2015.

(1) One Inyo County Sheriff's Department fax coversheet to Tominaga from Undersheriff Hollowell.

(1) One Written Statement from Mendiburu

ICSD Case Number 10-05-026

ICSD Case Number 15-02-021

**Details**

On Wednesday, February 18, 2015, at about 1245 hours, Lieutenant Baldwin advised me Joseph Mendiburu who is currently incarcerated at the Inyo County Jail, wrote Jail Staff a note stating his girlfriend Cherie saw Mickey Jarvis and Nick Brown on the Talbot Ranch welding prior to the "Round Fire". Lieutenant Baldwin told me Cherie is claiming Jarvis and Brown started the fire due to them welding.

Lieutenant Baldwin assigned me to investigate Cherie's claim and advised me to contact CAL-Fire Investigator Brian Tominaga who was assigned to investigate the "Round Fire". Lieutenant Baldwin told me he did not know

**NARRATIVE**

Cherie's last name.

I have knowledge of a land dispute between Mendiburu and his two sisters, Nicole Dobranzski and Danielle Mendiburu regarding the Flying M Cattle Ranch. I know Jarvis and Brown to work for the Flying M Cattle Ranch, (Refer to 10-05-026 for further information).

At about 1300 hours, I spoke to Tominaga on the telephone and asked him if he was aware of Cherie stating she saw Jarvis and Brown welding on the Talbot Ranch. Tominaga told me he was. I advised Tominaga, I was assigned to investigate Cherie's allegations. Tominaga told me through his investigation he determined the fire was caused by a tree behind a residence on the Talbot Ranch falling down on power lines due to the high winds. Due to Tominaga being out of the area, I advised him I would be in contact with him by telephone.

At about 1250 hours, I telephoned the Inyo County Jail and spoke to Corporal Smith. I asked Corporal Smith to check Mendiburu's visiting log and see if there was a Cherie who visited Mendiburu. Corporal Smith told me he was the one who Mendiburu gave the note to and he gave Mendiburu a written statement form which he filled out and returned to him. Corporal Smith advised me he gave Mendiburu's written statement to Undersheriff Hollowell.

Corporal Smith checked Mendiburu's visiting log and told me Cherie Hoersting visited Mendiburu on Sunday, February 1, 2015 and Sunday, February 15, 2015.

I reviewed Deputy Derr's report regarding the "Round Fire" and saw he briefly spoke to Walter Schober and Donald Perea who reside in two separate residence's on the Talbot Ranch, (Refer to Deputy Derr's Report, CR# 15-02-021 for further information).

Telephone Interview with Bill Talbot

On Thursday, February 19, 2015, at about 0818 hours, I spoke to Bill Talbot on the telephone. Bill and his brother, Tom Talbot both own the Talbot Ranch. I advised Bill, I was calling him to talk about the "Round Fire". I asked Bill who resides at the residence Jarvis use to live at (the north residence on the Talbot Ranch). Bill told me [REDACTED] resides at the residence. I asked Bill if Perea was doing any type of work with a welder the day of the fire. Bill told me Perea was not and Perea was inside of his residence at the time the fire started.

Bill told me the following in essence.

On Friday, February 6, 2015, sometime between 1330 hours and 1400 hours, he was driving to his ranch and from Pine Creek Road he saw smoke. The second residence south of the residence Jarvis use to live at is

|                                          |                            |                                              |                            |

|------------------------------------------|----------------------------|----------------------------------------------|----------------------------|

currently occupied by Walt Schober. Schober was in town at the time of the fire.

He (Bill) got to the fire before any fire equipment arrived. I asked Bill where the fire started at, he told me "just north of Schober's house." Bill told me when he arrived the wind was blowing from the northwest from Pine Creek Canyon.

Bill told me Perea stated when his power went off he looked out and saw flames near Schober's residence. Perea went to Schober's residence and went into the residence to see if anyone was home, but there was not. I asked Bill if the fire appeared to be between the two residences, he told me it did. Bill told me it appeared the fire started near the power lines going to Schober's residence.

I asked Bill if he knows if Perea was welding prior to the fire starting. Bill told me Perea was not and he was in town when the fire started. I asked Bill if he has Jarvis and Brown do any work around his ranch. Bill told me they only help them with the cattle once a year. I asked Bill if there was a reason for Jarvis and/or Brown to be at either of the residence on his (Bill's) Ranch, he told me there would not. Bill told me Jarvis came to help fight the fire. I asked Bill as far as he knew Jarvis or Brown were not at either ranch house, he told me they were not. I asked Bill if anybody was welding the day of the fire, he told me there was not.

I asked Bill how far from Old Sherwin Road was the fire. Bill told me 200 to 300 yards from the road. Bill told me there was some discrepancy in where Perea thought the fire started and where Cal-Fire thought the fire started.

Bill Talbot did not have any further information and I ended my interview.

Telephone Interview with Don Perea

On Thursday, February 19, 2015, at about 1008 hours, I spoke to Don Perea on the telephone. I advised Perea, I was contacting him regarding the "Round Fire". I asked Perea if he remembers what day the fire started. Perea told me the following in essence.

On Friday, February 6, 2015, at about 1345 hours, he was standing in his dining room looking out his back patio windows. He saw a "flash" near what is known as "Diversion 40" his residence and Schober's residence in a pasture with a telephone pole in the pasture. The power went off at his residence and he saw flames in the pasture. He telephoned 911 and it did not go through.

He drove to Schober's residence to let them know about the fire. After they did not answer the door he went inside to make sure they were not there and to make sure their pets were not in the residence. As he looked to the back of the residence he saw the fire was on the north side of the creek that runs next to the residence. He called 911 again and reported the fire. As he was leaving a white truck pulled into Schober's driveway. The unknown driver of the white truck with a camper shell pulled up next to Bill Goodman's dump truck. He

|                   |            |                       |            |
|-------------------|------------|-----------------------|------------|
| Prepared By:      | Date:      | Approved By:          | Date:      |

believes the unknown male moved Goodman's dump truck because it was no longer on Schober's property.

He went back to his residence, driving through flames. While driving back to his residence Bill Talbot called him and he told Bill about the fire. I asked Perea if anyone was working at the ranch at the time of the fire, he told me, "No". I asked Perea what he was doing prior to the fire. Perea told me he and Dick Weller were loading scrap metal into a roll off bin near the main hay barn which is located on the north end of the property.

When the wind picked up they stopped and Weller left. When Weller left he (Perea) went inside of his residence to eat lunch and that was when he saw the "flash" and the fire. I asked Perea if anyone else was there, he told me, "No". I asked Perea if he saw anyone at Schober's, he told me, "No".

I asked Perea if he saw Nick Brown or Mickey Jarvis on the property. Perea told me long after the fire started Jarvis and Brown came over with a water tank and pump in the back of Jarvis' truck to help fight the fire at the hay barn. I asked Perea if he saw them prior to the fire, he told me, "No". I asked Perea if Brown and Jarvis were welding on the Talbot Ranch, he told me, "No". Perea told me he and Weller were the only one out there the day the fire started. I asked Perea if he saw anyone at Schober's residence from his residence, he told me, "No".

I asked Perea not to discuss this investigation with anyone, he agreed. Perea told me he has heard stories about how the fire started. I asked Perea what he heard. Perea told me he heard the fire was started by tree's falling on power lines and arching power lines. I asked Perea if he had heard of anyone actually starting the fire, he told me he did not.

I asked Perea what the distance was from his residence to where he saw the "flash" and the fire starting. Perea estimated the distance to be between 300 to 400 yards.

Perea did not have any further information and I ended my telephone interview.

Telephone Interview with Walt Schober

On Thursday, February 19, 2015, at about 1033 hours, I spoke to Walt Schober on the telephone. I advised Schober, I had some questions regarding the "Round Fire". I asked Schober if he was at his residence when the fire started.

Schober told me the following in essence.

On Friday, February 6, 2015, at about 0830 hours, he and his wife left their residence to take their dog to the groomer. They returned at about 1000 hours.

At about 1300 hours, he and his wife left their residence to pick up their dog from the groomer. They went to

the hardware store and began driving back to their residence. Emergency vehicles began to pass him.

I asked Schober if anyone was at his residence while he was away, Schober told me there was not. I asked Schober if he or anyone else were at his residence working outside, he told me there were not. I asked Schober if Brown or Jarvis might have been at his property doing any type of work, he told me they were not. Schober told me he heard Brown and Jarvis were trying to fight the fire with a water tank in the back of a truck to save the hay stack.

I asked Schober if Brown or Jarvis have done any type of work on the Talbot Ranch within the past 6 months. Schober told me he would not know because he no longer ranches and referred me to contact Talbot's.

I asked Schober what he saw when he returned to his residence. Schober told me he saw flames and fireman fighting the fire. He spoke to an unknown fireman and asked if a tree fell onto the power lines. The unknown fireman told him, "Yes". He did not see the fallen tree or the fallen power lines. I asked Schober how close the fire was to his residence. Schober told me it was about 50 feet.

I advised Schober, I might be coming onto his property within the next couple of days and told him I would contact him when I do.

Schober did not have any further information and I ended my telephone interview.

On Thursday, February 19, 2015, at about 1145 hours, Deputy Derr and I went to Schober's residence located at [redacted] Deputy Derr showed me where Cal-Fire Investigators believe the fire started. I placed a yellow colored fire jacket on the tree that was suspected of falling due to the high winds that fell onto the power lines and photographed the area.

At about 1211 hours, I went to Perea's residence located at [redacted] and contacted Perea. I asked Perea if I could take photographs from where he was at when he saw the flash and the fire. Perea agreed and escorted me to the inside of his residence. We went in the back door to the dining room area. Perea showed me where he was standing and showed me the direction where he saw the flash and the fire start. I took photographs of the area.

Telephone Interview with Joe Mendiburu

On Friday, February 20, 2015, at about 0830 hours, I spoke to Joe Mendiburu on the telephone. Mendiburu was in custody at the Inyo County Jail. I told Mendiburu, I heard he might know something about the "Round Fire". Mendiburu told me he does and told me the following in essence.

His girlfriend, Cherie Hoersting, who is Nick Brown's cousin, told him on the day the fire started Brown and

|                   |            |                       |            |

Jarvis were cutting scrap metal and that is how the fire started. I asked Mendiburu if he knows any details regarding where and the time frame. Mendiburu told me to contact Hoersting for additional information.

I asked Mendiburu where Hoersting heard this information. Mendiburu told me Weller went into Brown's Supply and told Hoersting's mother, Earlene Beaver.

Mendiburu did not have any further information and I ended my telephone interview.

On Friday, February 20, 2015, at about 0835 hours, I telephoned Hoersting and left a message for her to contact me.

On Friday, February 20, 2015, at about 0922 hours, I went to Brown's Supply in an attempt to contact Beaver and Hoersting.

Interview with Earlene Hoersting and Burt Brown

I asked Burt if Cherie was in, Burt told me Cherie was usually at Brown's Campground. Earlene told me Cherie should be working at Millpond today. I told Earlene, I needed to talk to her (Earlene) too, about the fire in Round Valley.

I asked Earlene if Weller came in on February 6, 2015, she told me Burt knows more about Weller coming in. I asked Earlene and Burt what Weller told them about the fire. Earlene and Burt told me the following in essence.

About a week prior to the fire they took a scrap metal bin to the Talbot Ranch. Sometime after the fire during the following week, Weller came in. Weller told them he was out working with Perea on the Talbot Ranch cleaning up scrap metal. The wind began blowing really bad and he left. Weller told them what Perea told him about how the fire started. Weller didn't say anything about Nick Brown or Jarvis being out there helping them.

I asked Earlene if she told Cherie about Weller coming in and telling them about the fire. Earlene told me she may have told Cherie about Weller coming in. I told Earlene and Burt about Cherie claiming Nick and Jarvis being out on Talbot's Ranch cutting scrap metal. Earlene told me Cherie knew they took a scrap metal bin to the Talbot's Ranch, but they did not know anything about Nick and Jarvis.

While at Brown's Supply, Earlene called Cherie and told her, I needed to talk to her. I spoke to Cherie on the telephone and told her to call me at my Office, Cherie agreed.

Earlene and Burt did not have any further information and I ended my interview.

**NARRATIVE**

At an unknown time after I returned to my Office, I received a telephone call from Earlene. Earlene told me she did tell Cherie what Weller told them, but nothing was said about Nick or Jarvis. Earlene told me her other daughter, Kami (Foot) heard something from someone who came into her Office, but she did not know any further.

I ended my telephone conversation with Earlene.

Telephone Interview with Cherie Hoersting

On Friday, February 20, 2015, at about 1100 hours, I telephoned Cherie on her cellular telephone. I advised Cherie, I spoke to Mendiburu about the fire in Round Valley and he stated I should talk to her. I asked Cherie what she knows about the fire. Cherie told me she knows a scrap metal bin was placed on the Talbot Ranch and she heard Nick and Jarvis caused the fire due to them cutting scrap metal. I asked Cherie how she knows this information, she told me someone told her. I asked Cherie who told her, she told me she did not know.

I told her I have talked to several people during this investigation and no one told me they saw Nick or Jarvis on the Talbot Ranch prior to the fire. I told Cherie the people I have talked to told me Nick and Jarvis were fighting the fire trying to save a hay stack.

Cherie told me someone told her sister, Kami (Foot) they saw Nick and Jarvis cutting scrap metal. I asked Cherie if Kami told her about Nick and Jarvis. Cherie told me her sister, Stacie Sparrow told her about Nick and Jarvis cutting scrap metal. Cherie told me Stacie's husband, Tyson Sparrow from Aspen Construction was working near Lower Rock Creek prior to the fire too. I asked Cherie if Tyson saw Nick and Jarvis, she told me she did not know. I asked Cherie who Stacie heard this information from, she told me Kami. I asked Cherie who Kami heard this information from, she told me she did not know. Cheri then told me Kami heard the information from someone who came into her Office.

I asked Cherie where she was prior to the fire, she told me she was working at Millpond at the time and at about 1300 hours, she saw the smoke. I asked Cherie if she was out at Round Valley at any time during Friday, February 6, 2015, she told me she was not. I asked Cherie if she saw Nick or Jarvis at any time during the day of the fire, she told me she did not.

I asked Cherie if her mother, Earlene told her about Weller coming into Brown's Supply, Cherie told me she did. I asked Cherie what Earlene told her. Cherie told me Weller, Nick, and Jarvis were cutting scrap metal and after Weller left the fire started. I told Cherie, I spoke to Weller, Bill Talbot and Perea and neither of them told me Nick or Jarvis were at the Ranch helping with the scrap metal. Cherie told me they were all lying. I asked Cherie if they were all lying, she told me she does not trust any of them except Weller.

I asked Cherie if anyone was telling her to say Nick and Jarvis started the fire, she told me there was not. Cherie became upset with me for asking the question. I told Cherie again about everyone I spoke to did not see Nick or Jarvis on the Talbot Ranch prior to the fire. I told Cherie, I knew about the issues between Mendiburu, Nick and Jarvis. Cherie told me no one told her to say Nick and Jarvis started the fire.

Cherie did not have any further information and I ended my telephone interview.

On Monday, February 23, 2015, at about 1100 hours, I received Mendiburu's written statement in my Departmental Traffic Box, (See attached).

To my knowledge the Round fire started at Tom Talbot's ranch by George "Mickey" Jarvis and Nick Brown. They were at the ranch cutting scrap metal using blow torches and angle grinders and the sparkles got away from them. I heard from Cher. Heorstin which is a cousin to Nick Brown. Mickey Jarvis told the news it was from an arc from the power lines and not from him.

**Details:**

On 05/08/2010, I was contacted by Danielle Mendiburu and Nicole Dobrzanski at the Bishop Substation regarding a possible embezzlement.

Mendiburu and Dobrzanski told me they control the finances and operations of the Fl;flying M Cattle Company. The company was previously owned and operated by George Mendiburu, Nichole and Danielle's father.

George passed away on 12/25/2008. George did not leave a will or trust so the company and all of George's assets went into Probate.

On 02/06/2009, Danielle Mendiburu, Nichole Dobrzanski, Joe Mendiburu (brother to Danielle and Nichole) and Lee Mendiburu (Joe's Wife) were appointed positions acting as a board of Director's for the Flying M Cattle Company.

During the end of September, Lee called Nicole and told her Joe spent almost all of the company's

**NARRATIVE**

money on drugs and gambling.

Between 09/01/2009 and 09/30/2009, there were several purchases made on the company account. These purchases were made on online gambling sites. Joe was in charge of protecting the company's money. These purchases were about \$80,000.00. Dobrzanski questioned Joe about the purchases. Joe told Dobrzanski he made the purchases from online gambling sites. Danielle and Dobrzanski froze the bank account.

On 10/20/2009, Joe was removed as the Administer from George's estate, which included the operation of the company. Nichole and Dobrzanski assumed all responsibility and control of the company's account.

on or about 11/01/2009, Nichole and Dobrzanski told Joe he would still be in charge of day to day operations. they advised Joe if he stole anymore money from the company, they would sell the company and file charges of embezzlement. Joe told Nichole he received about 15,000.00 from Emilio Collado. Collado owed the company 30,000.00 for a loan. Joe attempted to go inside Shalcross and associates, the company's book keeper, and tell Shalcross to remove the debt from Collado.

Nichole and Dobrzanski were allowing Joe to put an offer together to buy the company from them. Nichole and Dobrzanski hired a Private Investigator to look into the company's operations. The investigator found that Joe sold cattle and sheep to agencies in Nevada. Joe took the checks, made out to Flying M Cattle Co, and had the checks re-issued as cashier's checks and remitted to Joe Mendiburu. The total of these checks were \$71,899.00.

Nichole and Dobrzanski told me the money was never deposited into the company account.

On 05/06/2010, Nichole and Dobrzanski informed Joe he was fired from the company and that the company would be sold.

At the request of Investigators, I have not contacted Mendiburu.

**Case Status:**

Referred to Investigations.

SUPPLEMENT 1

10-05-026

**Synopsis:**

On 05-08-2010, Corporal Connolly was contacted by Danielle Mendiburu and Nicole Dobrzanski at the Bishop Sheriff's Substation regarding an embezzlement from the Flying-M ranch. The suspect was identified as Joe Mendiburu and the victim was the Flying-M ranch.

**Evidence:**

Item 1. I took digital photographs of the welder as it was parked inside Collado's garage.

**Chain of Evidence:**

I kept the photographs in my possession until I downloaded them to my computer and burned them to a CD-R. The CD-R containing the photographs was attached to the case file.

**Attachments:**

A- One copy of Flying M- cattle sales (142 pages)

B- One copy of Flying M- accounting records (43 pages)

C- One copy of Flying M- new bank account (start Oct09) (15 pages)

D- One copy of Flying M- original bank account (end Sept09) (66 pages)

E- One type written statement from Nicole Dobrzanski and Danielle Mendiburu (5 pages)

F- One copy of bank records covering the months and years of December 2008 to September 2009 with debits highlighted by Nicole Dobrzanski (44 pages)

G- One copy of an invoice from Bishop Veterinary Hospital with the pregnancy check examinations highlighted (12 pages)

H- One copy of Acknowledgement And Agreement By Heirs To Acts, Accounting And Other Matters Relating To The Administration Of the Estate Of George L. Mendiburu (29 pages)

I- One copy of a written agreement signed by Emilio Collado and Joe Mendiburu (1 page)

J- One copy of Senior Special Investigator John Suther's report (2 pages)

K- One copy of a termination letter to Joseph Charles Mendiburu from Danielle Louise Mendiburu (1 page)

**Details:**

On 06-02-2010, at about 1201 hours I contacted Danielle Mendiburu and Nicole Dobrzanski at the Bishop Sheriff's Substation and collected documents from them. Danielle and Nicole told me their brother Joe Mendiburu has embezzled money from the Flying M cattle company either by accessing

SUPPLEMENT 1

10-05-026

Flying M bank accounts or selling cattle and misappropriating the proceeds. Danielle also noted Joe sold a welder mounted on a trailer that belonged to the ranch to Emilio Collado.

On 06-03-2010 at about 0900 hours Danielle and Nicole provided me with a type written statement concerning check number 11875 from Nevada Livestock Marketing LLC to the Flying M Cattle Co. in the amount of \$34,221.44.

I asked Danielle about repayment of the money Joe stole from the Flying M ranch. Danielle said she said and her sister Nicole made an agreement with Joe for the money to come out of Joe's portion of the inheritance when the estate settled.

On 08-27-2010, at about 1400 hours I received an E-mail from Danielle Mendiburu. The E-mail was a copy of Acknowledgement And Agreement By Heirs To Acts, Accounting And Other Matters Relating To The Administration Of the Estate Of George L. Mendiburu. I spoke with Danielle Mendiburu and confirmed she sent the E-mail to me. I attached a copy of the E-mail to this report.

**Corporal Connolly attached four photocopies of checks to his report:**

One was from the account of Nevada Livestock Marketing; LLC issued by First Independent Bank of Nevada to be paid to the Flying M Cattle Co. check number 11875, in the amount of \$34,221.44 The check from Nevada Livestock Marketing LLC numbered 11875 to the Flying M Cattle Co. was for payment of 74 head of cattle sold on 11-30-2009.

Three checks were Cashiers Checks with the remitter listed as Joseph C Mendiburu issued by the First Independent Bank of Nevada to be paid to the Flying M Cattle Co. The check numbers and amounts were as follows, #028486 in the amount of \$24,221.44, #028484 in the amount of \$5,000.00 and # 028485 in the amount of \$5,000.00.

**Kathleen Kasinger interview:**

On 05-26-2010, at about 1130 hours I spoke with Kathleen Kasinger who is the day shift cage manager at the Peppermill Hotel/Casino in Reno Nevada. I asked Kasinger about the entries on the cashier's checks numbered 028484, 02485 and 028486. Kasinger said it was the policy of the casino to obtain photo identification (normally a drivers license) and to compare the photo to the person at the cashier's cage. Kasinger said the cashier then writes the information from the identification card on the front of the check.

I asked Kasinger about a fingerprint I observed on checks numbered 028484 and 028485 issued by First Independent bank of Nevada. Kasinger said a fingerprint is obtained from the person who presents the check at the cage during the check cashing transaction.

I observed the number 12604383 on the front of the checks and Kasinger said the number is normally the players club tracking number of the person cashing the check.

I asked Kasinger about a mark that looked like it was possibly someone's initials on the face of checks numbered 028484 and 028485. Kasinger said the cage cashier normally puts their initials on the check during the transaction

SUPPLEMENT 1

10-05-026

I asked Kasinger about the stamp on the back of the checks and she said the stamp was applied by an employee of the Peppermill Hotel/Casino. Kasinger said the "#12#" at the top of the stamp identified the cage the check was cashed at. The next number "4159-584822" identified the Peppermill's account at Wells Fargo bank. I asked Kasinger about the date portion of the stamp "2009 NOV 39." Kasinger said the month portion of the date was not reset thereby allowing the day number to continue to count up. Kasinger said the date stamp "2009 NOV 39" actually was December 9 2009. The next portion of the stamp read "FOR DEPOSIT ONLY WELLS FARGO BANK" with the numbers 121000248. Kasinger said the numbers 121000248 identified the local Wells Fargo branch the Peppermill Casino conducted their business at.

On 05-27-2010, at about 1019 hours I re contacted Kasinger in regard to First Independent Bank of Nevada cashiers check number 028486. I noticed the check did not have all of the same information the other checks had hand written on the front. Kasinger said often times when a person cashes a check and returns to cash more checks and is recognized by the cashier cage staff, identification formalities are bypassed.

Total misappropriation for cattle sales at Nevada Livestock Marketing LLC was **\$34,221.44**

On 05-27-2010, at about 1350 hours I received an e-mail from a sender indicated as Danielle Mendiburu. I contacted Mendiburu and confirmed she sent the e-mails. The attachments were entitled as follows:

- \*Flying M- cattle sales,
- \*Flying M-accounting records,
- \*Flying M, new bank account (start Oct09)
- \*Flying M original bank account (end Sept09)

On 06-07-2010, at about 0914 hours I met with Nicole at the Bishop Sheriff's Substation. Nicole provided me account records for Flying M Cattle, Inc from Bank of America. Nicole highlighted debits made to the account that she said Joe Mendiburu made that were for Joe's benefit and not for the operation of the Flying M Cattle Company. (See attachment "F")

September 01 through September 30, 2009 \$ 48,206.69

August 01 through August 31, 2009 \$ 15,868.02

May 01 through May 29, 2009 \$ 1,000.00

Total:

**\$ 65,074.71**

**Sue Harriman interview:**

On 06-18-2010, at about 1028 hours I conducted a telephone interview with Sue Harriman of the Fallon

|                                    |                     |                                      |                     |

10-05-026

**SUPPLEMENT 1**

Nevada branch of First Independent Bank of Nevada. Harriman said she recalled the transaction with Joe Mendiburu when Mendiburu converted a check from Nevada Livestock Marketing LLC. in the amount of \$34,221.44, to three cashiers checks with Joe Mendiburu listed as the remitter and the payee as the Flying M Cattle Co. Harriman said she assisted the bank teller because the transaction was out of the ordinary.

Harriman said on 12-08-2009, a bank teller contacted her and told her a man was at the bank and wanted to cash a check made out to a business. Harriman said she assisted the teller and found the man was Joe Mendiburu as identified by his driver's license. Harriman said it is bank procedure in that situation to identify the customer by a valid form of photo identification. Harriman said the check was from Nevada Livestock Marketing LLC made out to the Flying M Cattle Co. Harriman said Mendiburu wanted to cash the check which was against bank policy. Harriman said bank policy allowed Mendiburu to convert the checks to cashiers checks with the payee listed as the same payee as on the original check and the remitter as Joe Mendiburu instead of Nevada Livestock Marketing LLC.

Harriman said Mendiburu converted the Nevada Livestock Marketing LLC check to three cashiers checks with the remitter listed as Joe Mendiburu and the payee listed as Flying M Cattle Co. Harriman said video surveillance is available from the date of the transaction and a subpoena would be necessary to obtain a copy of it.

**Lee Mendiburu interview:**

On 06-30-2010, at about 1004 hours I contacted Lee Mendiburu via the telephone. I told Lee Mendiburu I wanted to ask her about a report made by Nicole Dobranski and Danielle Mendiburu involving her ex husband Joe Mendiburu. Lee told me the following in essence.

I asked Lee if she knew if Joe has a computer in his home and she said "yes." I asked Lee if she was sure of that and she said she was positive. I asked Lee she could be positive Joe owns a computer and she said her kids told her Joe has a computer and she has seen it for herself. I asked Lee when the last time she saw the computer was and she said in September 2009 when she moved out. Lee said her kids saw a computer in Joe's residence two weeks ago when they were visiting Joe. I asked Lee how long Joe has owned the computer and she said since his Dad died. I asked Lee if it was the same computer and she said it was. I asked Lee where Joe got the computer and she said it was his father's. Lee said her kids told her they played on a computer at Joe's residence the last time they visited Joe two weeks ago.

I asked Lee if she was aware of Joe misappropriating money from the sale of Flying M livestock sales. Lee said well yeah, I think that happened quite a bit. Lee said she witnessed that for sure although she could not provide specific information. I asked Lee if Joe ever commented about it and Lee said no, he did not want to comment about it.

I asked Lee about the company bank accounts and Lee said the only times she used the accounts was to pay bills. Lee said she began to notice there was a lot of money missing from the accounts was when her and Joe's marriage began to fall apart.

I asked Lee how she knew money was missing from the ranch and she said the bank accounts. I asked Lee if when she saw the bank statements she knew the balances had dropped without a reason or could not be accounted for and she said yes. Lee said she handled the bank statements for the ranch after Joe's

**SUPPLEMENT 1**

father died was able to see the balances when she was delivering them to the ranch's accountant.

I asked Lee if she ever saw Joe gamble on-line and she said she saw Joe playing poker on line. I asked Lee how many times she saw Joe playing poker and she said many times. Lee said she saw Joe playing at least 3 times a week before she moved out. I asked Lee if she knew if Joe was playing for money and she said one time she saw Joe playing and asked him about it. Lee said Joe told her he only had twenty dollars in the account he was using. Lee speculated Joe played poker online more frequently than what she observed and that he did it when she was away from the residence or was asleep in the early morning hours.

**Emilio Collado interview:**

On 07-20-2010, at about 1419 hours I contacted Emilio Collado at 275 Pine Creek road in Bishop California and spoke to him about this report. Collado told me the following in essence.

I advised I wished to speak with regarding a report of theft made at the Flying M cattle company. I told Collado I was told he might have purchased livestock and a welder from Joe Mendiburu, that Mendiburu did not have the right to sell.

Collado said he has purchased cattle from Joe Mendiburu in the past and said they were Joe's cattle. I asked Collado when the last time he purchased cattle from Joe Mendiburu was and Collado said it was a long time ago. Collado said he purchased nineteen cows in 2009.

I asked Collado if he purchased a welder from Joe Mendiburu and Collado said yes. I asked Collado if Joe Mendiburu told him it was his and Collado said Joe Mendiburu told him he needed money for a lawyer. Collado said Joe Mendiburu did not sell it to him rather he loaned Joe Mendiburu money and Joe Mendiburu used the welder as collateral. Collado said when Joe Mendiburu repays the money he will return the welder to Joe Mendiburu.

Collado said he loaned Joe Mendiburu fifteen hundred dollars. Collado said he has paperwork detailing the loan to Joe Mendiburu. I asked Collado if he would provide me with a copy of the paperwork he and Joe Mendiburu signed and he said he would.

I asked Collado about a payment he made to Joe Mendiburu for repayment of a loan. Collado said he borrowed thirty thousand in cash from George Mendiburu. Collado said it was a personal loan from George Mendiburu. Collado also said they did not fill out any paperwork on the loan. Collado said he spoke to Joe Mendiburu after George died and told Joe he owed him thirty thousand dollars. Collado said Joe Mendiburu gave him a paper and Joe said you pay me whenever you can. Collado said he paid Joe Mendiburu thirty thousand dollars and I said you paid him thirty thousand and Collado said "No I paid him fifteen thousand dollars." Collado said he told Joe Mendiburu he would pay him when he could and Joe Mendiburu told Collado to pay him whenever. Collado said the "sister's have tried to say it was a Flying M deal. Collado said it was not a Flying M deal, it was between George and me." Collado said he still owes fifteen thousand dollars. Collado said Joe Mendiburu told him to pay him in two years, three years or whenever.

I asked Collado if a welder I saw in his front yard was the welder Joe Mendiburu used as collateral and

**SUPPLEMENT I**

he said no, it was in the back. I asked Collado if the welder Joe Mendiburu used as collateral belonged to the ranch and he said the welder belonged to George Mendiburu. Collado said he was with George Mendiburu when George bought the welder.

I asked Collado if I could look at the welder and he said I could. Collado said it was in a shed to the north of his house and was painted blue. I told Collado I wanted to take a photograph of the welder and he said that would be okay.

I photographed the welder as it was parked inside of a shed before I left Collado's residence.

**Joe Mendiburu interview:**

On 07-13-2010, at about 1007 hours Joe Mendiburu contacted me via the telephone and told me to speak his attorney Ed Noriega of Bakersfield and that he did not have anything to say regarding this report at this time.

On 07-21-2010 at about 1443 hours I called Noriega's office and left a message for him to contact me regarding this case. I have not heard back from Noriega.

**Additional Information:**

On 09-08-2010, at about 0937 hours Investigator Martinez, State of California Brand Inspector Robert Helfrich, State of California Brand Senior Special Investigator John Suther and I contacted Emilio Collado at his residence located at 275 Pine road Bishop.

Suther interviewed Collado about the purchase of cows Collado made from Joe Mendiburu in November of 2009. Investigator Martinez and I stood by during Suther's interview.

On 09-20-2010, at about 1440 hours I spoke with Special Investigator Suther via the telephone. Suther said number of calves Collado sold was consistent with the number cows he had.

Refer to Senior Special Investigator John Suther's case number BLI-2010-0054, for further information.

On 09-13-2010, at about 1424 hours I collected a written agreement signed by Emilio Collado and Joe Mendiburu from Dorothy Collado

**Case Disposition:**

Referred to the Inyo County District Attorney's Office for review.

**Synopsis:**

On 05-08-2010, Corporal Connolly was contacted by Danielle Mendiburu and Nicole Dobrzanski at the Bishop Sheriff's Substation regarding an embezzlement from the Flying-M ranch. The suspect was identified as Joe Mendiburu and the victim was the Flying-M ranch.

**Attachments:**

Item 1. One copy of a handwritten letter addressed to Nicole and Danielle and signed by Joe.

**Details:**

On 09-30-2010, at about 1140 hours Danielle Mendiburu contacted me at the Bishop Sheriff's Substation. Mendiburu gave me a copy of a handwritten letter addressed to "Nicole and Danielle", and signed by "Joe." Danielle said the note was given to her by her mother Suzanne Braden. Danielle said her mother told her she was present when Joe wrote the letter. Danielle said her mother told her Joe told her to give the letter to Nicole and Danielle. Danielle said her mother gave her the letter in December of 2009.

**Suzanne Braden interview:**

On 09-30-2010, at about 1325 hours I spoke with Suzanne Braden via the telephone regarding the letter Danielle gave to me. I reviewed the letter with Braden and Braden said it was the same letter Joe wrote and gave to her. Braden said Joe wrote the letter to Danielle and Nicole apologizing for taking the ranch's money around either Thanksgiving or Christmas of 2009. Braden said she was visiting Joe at the time and told him he needed to apologize to his sisters. Braden said she gave Joe a pad of paper a couple of days before Joe wrote the letter. Braden said she was present with Joe when Joe wrote the letter.

**Case Disposition:**

Referred to the Inyo County District Attorney's office.

**Synopsis:**

On 05-08-2010, Corporal Connolly was contacted by Danielle Mendiburu and Nicole Dobrzanski at the Bishop Sheriff's Substation regarding an embezzlement from the Flying-M ranch. The suspect was identified as Joe Mendiburu and the victim was the Flying-M ranch.

**Attachments:**

Item A. One copy of a report written by John Suther case number BLI-2010-0054 (attachment "J").

**Details:**

On 10-18-2011, at about 0815 hours I met with California Brand Inspector John Suther at the C-Ranch located on the east side of US highway 395 about four miles south of Bishop. I reviewed Suther's report with him and he said except for one thing, his report was inclusive.

On 09-08-2010, California Brand Inspector John Suther, Brand Inspector Bob Helfrich and I went to 275 Pine Creek road in Bishop to meet with Emilio Collado. Suther said he wanted to talk to Collado because the Flying M ranch manager Mickey Jarvis told him cattle belonging to Collado (35 pairs and 85 yearlings) were being pastured on Flying M ranch property and only Flying M livestock were supposed to be on Flying M ranch property.

Suther said he asked Collado if he had purchased any cattle from Joe Mendiburu and Collado told him he purchased 19 pairs from Joe Mendiburu with the DJ brand. Suther said he asked Collado if he had bought any cattle from the Flying M ranch and Collado told him he had not. Suther said he asked if he had gotten a brand inspection for the cattle he purchased from Joe Mendiburu and Collado said he had not and that Joe Mendiburu said he would get it for him.

Suther said he asked Collado about the 85 yearlings he had pastured on Flying M ranch property and Collado told him he had 66 yearlings on the Flying M ranch. Suther said he went to the pasture where the yearlings were kept and counted 66 head. Suther said Collado told him he had about 350 cows of which 300 were kept around his house and 49 cows were kept in Long Valley with Cashbaugh cattle. Suther said Collado told him he was going to ship his calves and yearlings in September 11, 2010. Suther said they agreed to look at the cattle he purchased from Joe Mendiburu and count his cattle at that time. Suther said Collado told him he purchased the last of Joe Mendiburu's cattle in December of 2009.

Suther said on September 11, 2010, Brand Inspector Helfrich inspected 122 steer calves, 86 heifer calves, 51 yearling steers, 8 yearling heifers and 7 yearling cuts for a total of 274 head. Suther said the number Collado sold is close to the number he owns. Suther said a possible reason some of Collado's cattle look like Flying M ranch cattle is because some of the pairs on pasture were purchased from Joe Mendiburu. Suther said Collado supplied Brand Inspector Helfrich with paperwork for the purchase of 16 pair from Joe Mendiburu. Suther said that was consistent with the number of DJ branded cattle Brand Inspector Helfrich counted.

Suther said he checked sale records for Joe Mendiburu at Western Stockman's Market and Nevada Livestock Marketing and found Joe Mendiburu sold approximately 20 less calves that he sold cows in 2009.

Suther said a brand inspection needs to be done at the time cattle are transacted.

**Case Disposition:**

Referred to the Inyo County District Attorney's Office for prosecution.

Item#A- Sketch of approximate location of fire on my arrival with digital image from google earth.

Item#B- Sketch of approximate location of fire on my arrival on a digital topographic map.

Item#C- Inyo County Sheriff's Department CAD Incident Report for Incident# 1502060023.

Evidence:

Item#1- Audio CD containing interview with Donald Perea.

Item#2- Audio CD containing Donald Perea's initial 911 call.

Chain of Evidence:

Item#1- On 02-07-2015, at about 0936 hours, I recorded my interview with Perea with my personal digital audio recorder. On 02-09-2015, at about 0800 hours, I downloaded and burned the audio recording onto a Compact Disc. On 02-09-2015, I forwarded the compact disc to Cal-Fire investigator Tominaga.

Item#2- On 02-08-2015, I received a digital copy of Perea's 911 call from Dispatcher Frew. On 02-08-2015, at about 0800 hours, I downloaded the digital copy onto a compact disc and forwarded to compact disc to Cal-Fire investigator Tominaga.

Details:

On 02-06-2015, at about 1405 hours, I was dispatched with fire personnel to a vegetation fire near the Talbot Ranch on Lower Rock Creek Road (AKA Old Sherwin Road).

I arrived on scene and began evacuation procedures at the Schober residence located at [REDACTED] [REDACTED]. The residence is further described as a white single story ranch style home with several wood outbuildings to the north and east of the main residence. I cleared the main residence attempting to evacuate any occupant's. No occupants were located inside the main residence.

I walked around the exterior of the main residence looking for garden hoses or sprinklers which could be used to keep the fire from burning the residence, with negative results. As I walked around the southwest corner of the residence I saw power lines hanging down to the ground from the wood telephone pole next to the residence. The power lines continued west along the ground where they intersected with a down tree. The tree was lying on the ground with the top pointing to the north east, directly at Lower Rock Creek Road. At that time the fire was burning north / northeast toward Lower Creek Road. The southern flank of the fire was approximately 150 feet from the back of the residence. The top portion of the tree was of fire and the grass under the tree was back burning near the base of the tree. From my vantage point the north flank of the fire had not crossed Rock Creek (Rock creek runs west to east approximately 100 yards from the residence). The head of the fire was already burning on the west shoulder of Lower Rock Creek Road. Due to rapid fire spread

and heavy wind driven smoke I was unable to gather more precise distances. Refer to Attachment #A.

As I walked back to my patrol vehicle I contacted Walter "Walt" Schober, who had pulled into the driveway while I was conducting my evacuation procedure. I spoke briefly with Schober who verbally identified himself as the [REDACTED] of the house. Schober said he was going to move his vehicle out of its wood parking structure and then leave the area.

Fire personnel arrived at the residence and I proceeded approximately one quarter of a mile north to 2180 Old Sherwin Road. As I drove to 2180 Old Sherwin Road, I noticed the fire had jumped Lower Rock Creek Road and was burning on the east shoulder of Lower Rock Creek Road.

After conducting evacuation procedures at 2180 Old Sherwin Road the wind shifted to the north and the fire began heading north along Lower Rock Creek Road. I spent the remainder of my shift conducting evacuation procedures.

On 02-07-2015, I was assigned to assist Fire Prevention Officer Tominaga with fire investigation.

On 02-07-2015, at about 0936 hours, I contacted Donald "Don" Perea, who resides at [REDACTED]

Perea told me the following in summary:

On 02-06-2015, He was working near his shop using a light and listening to the radio. At about 1400 hours, Perea said his radio stopped playing and his work light went out. Perea then looked to the south toward "Walt's" place (referencing Walter Schober's residence at [REDACTED]). Perea saw a "flash" then "ten foot flames" behind Schober residence. Perea used his cellular telephone to call 911 since his land line telephone was not working. The call record from Perea's cellular telephone showed a 911 call at 1402 hours, on 02-06-2015. Perea quickly drove to [REDACTED] to inform

Schober. Schober was not at the residence. Perea saw the trees behind Schober's residence on fire and feared Schober's residence would be burned. Perea returned to his residence and began evacuating livestock at the ranch.

I ended my interview with Perea and requested him to complete a written statement form.

I attempted to contact Schober through-out the day with negative results.

I checked the Inyo County Sheriff dispatch incident log to find the original reporting party. The incident report showed Don Perea as the original reporting party to the Sheriff's Office at 1403 hours, on 02-06-2015. I spoke with dispatcher Frew who stated there were two calls following Perea reporting the fire. No information for the callers was gathered, due to the incident previously being reported. Frew noted that the two following calls had no pertinent information and the callers could only inform him of smoke in north end of Round Valley.

On 02-08-2015, at about 1030 hours, I contacted Schober near the road closer for the fire on Lower Rock Creek

Road.

Schober told me the following in summary:

On 02-06-2015, at 1330 hours, he left his residence and drove to into town (Bishop) to pick-up his dogs from the groomers. After retrieving his dogs and running to the hardware store he began returning to his residence. While driving to his residence he was passed by emergency personnel. Schober then saw the smoke column and though it might be on the "mesa" a nearby housing community. As Schober drove closer he noticed the fire to be at his residence. Schober noticed several trees down on his property but did not know where the fire started. Prior to leaving his residence Schober did not notice anything unusual. Schober had no further information.

I ended my interview with Schober.

As of this report I have not received a written statement from Perea.

I was unable to locate any further witnesses at the time of this report.

Case Status:

Open / Forwarded to CAL-Fire.

## Remarks

On February 6, 2015, at 2:07 P.M., E3561 was dispatched as part of a wildland dispatch, to a reported vegetation fire on Lower Creek Rd approximately 1 mile North of Gorge Rd. Upon arrival, I observed approximately 2-3 acres of vegetation burning with an approximately 70 MPH South to South East wind pushing the fire in a Northerly direction. I observed numerous trees down in the area of the fire origin. E3561 engaged in fire supression activity, and was unable to complete a preliminary fire investigation. Investigation was completed by P3522 TOMINAGA.

---
