LAND DEVELOPMENT TECHNICAL ADVISORY COMMITTEE DROUGHT RESILIENCE TASK FORCE

In accordance with Senate Bill (SB) 552 requirements, the Land Development Technical Advisory Committee will be holding a Special Drought Resilience Task Force Session to advance County efforts to prepare for and mitigate the impacts of drought, water shortages, and water system failures.

The purpose of this meeting is to focus on:

- Reviewing SB 552 planning and implementation requirements
- Discussing the Drought Resilience Plan and key milestones
- Strengthening local coordination and long-term water resilience.

We invite all interested stakeholders, including local agencies, water providers, and community representatives, to participate in this important session. Your input is vital to shaping an effective and equitable drought resilience plan.
