STAFF REPORT

Subject: State of Good Repair Program: 2025-26 Project List

Initiated by: Phil Moores, Executive Director

BACKGROUND:

SB-1 legislation provides approximately \$138 million annually to transit operators in California for eligible transit maintenance, rehabilitation and capital projects. This investment in public transit is referred to as the State of Good Repair (SGR) Program. The SGR Program is funded from a portion of a new Transportation Improvement Fee on vehicle registrations due on or after January 1, 2018. A portion of this fee is transferred to the State Controller's Office (SCO) for the SGR Program, which is managed and administered by the California Department of Transportation (Caltrans). These funds will be allocated under the State Transit Assistance (STA) Program formula to eligible agencies pursuant to Public Utilities Code (PUC) section 99312.1. Half of the funds are allocated according to population and half according to transit operator revenues.

ANALYSIS/DISCUSSION:

The goal of the SGR Program is to provide funding for capital assistance to rehabilitate and modernize California's existing local transit systems. Prior to receiving an apportionment of SGR funds in a given fiscal year, a potential recipient agency must submit a list of projects proposed to be funded to the Department. Each project proposal must include a description and location of the project, a proposed schedule for the project's completion, and an estimated useful life of the improvement. The Department will provide the SCO a list of all agencies that have submitted all required information and are eligible to receive an apportionment of funds. Each recipient agency is required to submit an Annual Expenditure Report on all activities completed with those funds to the Department. Each agency must also report the SGR revenues and expenditures in their annual Transportation Development Act Audit.

SGR funds are made available for capital projects that maintain the public transit system in a state of good repair. PUC section 99212.1 (c) lists the projects eligible for SGR funding, which are:

- Transit capital projects or services to maintain or repair a transit operator's existing transit vehicle fleet or transit facilities, including the rehabilitation or modernization of the existing vehicles or facilities.
- The design, acquisition and construction of new vehicles or facilities that improve existing transit services.

September 8, 2025

- Transit services that complement local efforts for repair and improvement of local transportation infrastructure.

Examples include, but are not limited to, the following:

- Replacement or rehabilitation of:
 - Rolling stock
 - Passenger stations and terminals
 - Security equipment and systems
 - Maintenance facilities and equipment
 - Ferry vessels
 - Rail
- Transit Preventative Maintenance
 - Preventative maintenance is only to maintain existing infrastructure and vehicles in a state of good repair, essentially repair and rehabilitation.
Normal maintenance such as oil changes and other regularly scheduled vehicle maintenance are to be covered under normal operating costs and are not eligible for State of Good Repair funding.
 - Public and Staff Safety
New maintenance facilities or maintenance equipment if needed to maintain the existing transit service

The August 2025 estimate of available SGR funds for FY 2025/26 identifies a total of \$89,191 in available SGR funding. Of this total SGR allocation, \$32,838 is from Inyo County population-based SGR, \$22,155 is Mono County population-based and \$34,198 is Mono County revenue-based funds. 30% of the PUC 99314, revenue-based funds or \$10,259 is due to Inyo County under the funding split provided under PUC 99314. The SGR funding will be used for Repair and Rehabilitation projects.

Prior to receiving an apportionment of SGR program funds in a fiscal year, an agency must submit a list of proposed projects to the California Department of Transportation (DOT). DOT reports to SCO the eligible agencies that will receive an allocation quarterly pursuant to PUC sections 99313 and 99314.

RECOMMENDATION

The Mono LTC is requested to approve Resolution #R25-04, approving the State of Good Repair program Project List submitted by Eastern Sierra Transit Authority for FY2025-26.

RESOLUTION #R25-04
AUTHORIZATION FOR THE EXECUTION OF THE
REGIONAL ENTITIES APPROVING PROJECT LIST
FOR THE CALIFORNIA STATE OF GOOD REPAIR PROGRAM

WHEREAS, the Mono County Local Transportation Commission is an eligible recipient and may receive State Transit Assistance funding from the State of Good Repair Program (SGR) now or sometime in the future for transit capital projects; and

WHEREAS, the statutes related to state-funded transit capital projects require a local or regional implementing agency to abide by various regulations; and

WHEREAS, Senate Bill 1 (2017) named the Department of Transportation (Department) as the administrative agency for the SGR; and

WHEREAS, the Department has developed guidelines for the purpose of administering and distributing SGR funds to eligible recipients (local agencies); and

WHEREAS, the Mono County Local Transportation Commission approves the project list for the PUC 99313 apportionment.

WHEREAS, the Mono County Local Transportation Commission concurs and approves the project list from the operators for the PUC 99314 apportionment.

NOW, THEREFORE, BE IT RESOLVED that the Mono County Local Transportation Commission approves the region's State of Good Repair project list for **FY 25/26**.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Mono County Local Transportation Commission that the fund recipient (Eastern Sierra Transit Authority) agrees to comply with all conditions and requirements set forth in the Certification and Assurances document and applicable statutes, regulations and guidelines for all SGR funded transit capital projects.

NOW THEREFORE, BE IT FURTHER RESOLVED that the Executive Director be authorized to execute all required documents of the SGR program and any Amendments thereto with the California Department of Transportation.

By the following vote: Ayes: Noes: Abstain: Absent:

Wendy Sugimura, Co-Executive Director

(Executive Summary only)

Executive Summary

On August 14, 2025, the California Transportation Commission adopted the 2026 State Transportation Improvement Program (STIP) Fund Estimate (FE). The STIP FE is a biennial estimate of all resources available for the state's transportation infrastructure over the next five-year period, and establishes the program funding levels for the STIP and the State Highway Operation and Protection Program (SHOPP). The 2026 STIP FE period covers state fiscal years 2026-27 through 2030-31, with 2025-26 included as the base year.

The 2026 STIP FE incorporates Governor Newsom's Executive Order N-79-20 which requires that all new cars and passenger trucks sold are zero-emission vehicles (ZEV) by 2035. The Order also requires the same emissions status for medium and heavy-duty vehicles by 2045. ZEVs include battery-electric vehicles, hydrogen fuel cell vehicles and plug-in hybrid electric vehicles. This transition from smog-producing vehicles to ZEVs will dramatically reduce demand for gasoline and diesel fuels, which will negatively impact transportation revenues. Excise taxes collected from the consumption of vehicle fuel is the largest state revenue source for transportation.

STIP Capacity

STIP projects add new development to the state's transportation infrastructure. The 2026 STIP FE includes a total estimate of \$2.7 billion in program target capacity over the five-year FE period. Program capacity represents the total value of projects that can be funded each year, including construction, right-of-way (R/W), and support. Support consists of preliminary engineering, planning, design, and construction engineering. From the \$2.7 billion in total estimated program capacity over the 2026 STIP FE, new STIP capacity currently available for programming is approximately \$1.1 billion over the FE period.

2026 STIP FE STIP Program Capacity (\$ in millions)								
	2025-26	2026-27	2027-28	2028-29	2029-30	2030-31	5-Year Total	6-Year Total
2026 STIP FE Target Capacity	\$585	\$560	\$580	\$560	\$510	\$500	\$2,710	\$3,295
2024 STIP Program	718	528	580	517	0	0	1,625	2,343
New STIP Program Capacity	(\$133)	\$32	\$0	\$43	\$510	\$500	\$1,085	\$952
Cumulative Difference	(\$133)	(\$101)	(\$102)	(\$58)	\$452	\$952		
Estimated Capital Allocation Capacity	\$470	\$450	\$460	\$450	\$410	\$400		

Note: Individual numbers may not add to total due to independent rounding.

- STIP capacity over the 2026 five-year FE period is five percent lower compared to the 2024 five-year FE period. STIP capacity in the future will depend primarily on the inflationary component of the incremental excise tax revenues outpacing the reduction in gasoline consumption, and the diesel sales tax revenues remaining stable.

SHOPP Capacity

SHOPP projects are funded with federal and state resources and consist of major rehabilitation work on the State Highway System. The 2026 STIP FE forecasts SHOPP capacity of \$21.7 billion over the five-year FE period. Similar to the STIP, SHOPP capacity represents the total value of projects that can be funded each year, and includes construction, R/W, and support. From the \$21.7 billion in total estimated program capacity over the 2026 STIP FE, new SHOPP capacity currently available for programming is approximately \$11.1 billion over the FE period.

2026 STIP FE SHOPP Program Capacity (\$ in millions)								
	2025-26	2026-27	2027-28	2028-29	2029-30	2030-31	5-Year Total	6-Year Total
2026 STIP FE SHOPP Target Capacity	\$5,100	\$4,300	\$4,300	\$4,300	\$4,400	\$4,400	\$21,700	\$26,800
2024 SHOPP Program	5,240	5,240	5,340	0	0	0	10,580	15,820
New SHOPP Program Capacity	(\$140)	(\$940)	(\$1,040)	\$4,300	\$4,400	\$4,400	\$11,120	\$10,980
Cumulative Difference	(\$140)	(\$1,080)	(\$2,120)	\$2,180	\$6,580	\$10,980		
Estimated Capital Allocation Capacity	\$3,800	\$3,200	\$3,200	\$3,200	\$3,300	\$3,300		

Note: Individual numbers may not add to total due to independent rounding.

- SHOPP capacity over the 2026 five-year FE period is 16 percent lower compared to the 2024 five-year FE period, due to additional commitments associated with unprogrammed costs, including increased frequency of emergency projects and increased costs for projects.

County and Interregional Share Estimates

The STIP consists of two broad programs, the regional program funded from 75 percent of new STIP funding, and the interregional program funded from 25 percent of new STIP funding. The 75 percent regional program is further subdivided by formula into County Shares. County Shares are available solely for projects nominated by regions in their Regional Transportation Improvement Programs (RTIPs).

The 2026 STIP Fund Estimate (FE) indicates that there is negative program capacity for the Public Transportation Account (PTA). This means that transit projects currently programmed or proposed for programming in the STIP must be eligible for State Highway Account (SHA) funds and federal funds.

The following tables display STIP county and interregional shares and targets for the 2026 STIP:

Table 1. Reconciliation to County and Interregional Shares

This table lists the net changes to program capacity from the 2026 STIP FE to the capacity used in the County and Interregional Shares. This table also separates the program capacity by PTA and SHA capacity. The table is based on Commission actions through June 30, 2025.

Table 2. Summary of Targets and Shares

This table takes into account all county and interregional share balances through the June 2025 Commission meeting, as well as new statewide STIP capacity. For each county and the interregional share, the table identifies the following target amounts:

- Total Target: This target is determined by calculating the STIP formula share of all new capacity through 2030-31. The calculation of this target is shown in Table 3.
- Maximum: This target is determined by estimating the STIP formula share of all available new capacity through the end of the county share period in 2031-32. This represents the maximum amount that the Commission may program in a county, other than advancing future shares, pursuant to Streets and Highways Code Section 188.8(j), to a county with a population of under one million. The calculation of this target is shown in Table 4.

Table 3. Calculation of New Programming Targets and Shares - Total Target

This table displays factors in the calculation of the Total Target.

- Net Carryover: These columns display the current share status, including STIP allocations and amendments through the June 2025 Commission meeting. Positive numbers indicate unprogrammed shares, and negative numbers indicate shares that were advanced.
- 2026 STIP Target Through 2030-31: This section calculates the total target. The total target is the formula distribution of new capacity available through 2030-31 adjusted for carryover balances and lapses.
 - Formula Distribution: This is the 2026 STIP share through 2030-31. It is the formula distribution of program capacity available through 2030-31. The amount distributed is the new capacity less the unprogrammed shares, lapses, and the decrease in advances.
 - Add Back 2023-24 and 2024-25 Lapses: This identifies the amount for projects lapsed in 2023-24 and 2024-25. These amounts are credited back in the 2026 STIP Fund Estimate to county and interregional shares for the four-year share period beginning 2028-29.
 - Net Share (Total Target): This is the 2026 STIP target through 2030-31. The Net Share (Total Target) is calculated by adding to the formula distribution the lapses and the unprogrammed balance or balance advanced. In cases where the distribution of new capacity is insufficient to cover prior advances (i.e., the Net Share would be less than zero), a zero appears in the Net Share column.
 - Net Advance: Numbers in this column represent advances against future capacity. This occurs when the distribution of new shares (through 2030-31) is insufficient to cover prior advances.

Table 4. Calculation of New Programming Targets and Shares – Maximum

This table calculates the maximum amount that the Commission may program in a county, other than advancing future shares, pursuant to Streets and Highways Code Section 188.8(j), to a county with a population of under one million.

- Net Carryover: These columns display the current share status, including STIP allocations and amendments through the June 2025 Commission meeting. Positive numbers indicate unprogrammed shares, and negative numbers indicate shares that were advanced.
- 2026 STIP Share Through 2031-32: This section estimates the maximum target. This is the formula distribution of estimated new capacity available through 2031-32 adjusted for carryover balances and lapses.
 - Formula Distribution: This column estimates the STIP share of the estimated new capacity through the county share period ending in 2031-32. It is the formula distribution of estimated program capacity available through the county share period ending in 2031-32. The amount distributed is the new capacity less the unprogrammed shares, lapses, and the decrease in advances.
 - Add Back 2023-24 & 2024-25 Lapses: This identifies the amount for projects lapsed in 2023-24 and 2024-25. These amounts are credited back in the 2026 STIP Fund Estimate to county and interregional shares for the four-year share period beginning 2028-29.
 - Net Share (Maximum): This target is the STIP share of all available new capacity through the end of the county share period in 2031-32. This represents the maximum amount that the Commission may program in a county, other than advancing future shares, pursuant to Streets and Highways Code Section 188.8(j), to a county with a population of under one million. The Net Share (Maximum) is calculated by adding to the formula distribution the lapses and the unprogrammed balance or balance advanced. In cases where the distribution of new capacity is insufficient to cover prior advances (i.e., the Net Share would be less than zero), a zero appears in the Net Share column.
 - Net Advance: Numbers in this column represent advances against future capacity. This occurs when the distribution of new shares (through 2031-32) is insufficient to cover prior advances.

Table 5. Planning, Programming, and Monitoring (PPM) Limitations

State law provides that up to 5% of a county share may be expended for planning, programming, and monitoring (PPM). This limitation is applied separately to each four-year county share period.

- Total: This section identifies the shares for the 2028-29 through 2030-31 share period based upon the 2024 and 2026 Fund Estimates. These are the amounts against which the 5% is applied
- 5% PPM Limitation: These are the PPM limitations for the 2028-29 through 2030-31 share period.
